## MONTGOMERY COUNTY PUBLIC SCHOOLS

*Expanding Opportunity and Unleashing Potential*

---

January 2024

Dear High School Students:

Montgomery County Public Schools (MCPS) is committed to ensuring that every student graduates from high school prepared for college and career success. Our high schools offer a wide variety of classes and programs designed to prepare you for the future challenges of college and the workplace. This 2024–2025 High School Course Bulletin presents the extensive range of exciting courses and programs offered in MCPS. Please use the information in the bulletin as you take the opportunity to discuss the academic and career paths you want to explore with your parents/guardians, teachers, and counselor. These conversations will guide you in selecting courses to plan a learning experience that will challenge and engage you. For additional information about the high school curriculum, please visit <https://www.montgomeryschoolsmd.org/curriculum/highschool/index.aspx>.

In addition, please reference your Naviance Student *High School Graduation, College, and Career Planner* as you select your classes. The planner allows you to determine whether the courses you are taking satisfy graduation/career readiness education requirements so that you are college and career-ready. Moreover, the planner and your Naviance Student portfolio allow you to explore career interests and educational and professional options. You may contact your school counselor with questions about the *High School Graduation, College, and Career Planner*.

Each high school's website may be accessed at [www.montgomeryschoolsmd.org/schools/](http://www.montgomeryschoolsmd.org/schools/) and can be another helpful resource in addition to the information in this bulletin. The information on these sites provides an overview of each high school, including detailed descriptions of application and career readiness programs offered in MCPS.

MCPS is fortunate to have highly competent and dedicated teachers, principals, school counselors, and support staff in our high schools. Preparing you for your future as a productive citizen in a global society is a responsibility we take seriously. We invite you to commit to your studies with the same zeal and enthusiasm.

I urge you to enroll in challenging and rigorous courses in pursuit of your personal goals and extend my best wishes for your success as you prepare for exciting and rewarding experiences ahead.

Sincerely,

Monifa B. McKnight, Ed.D.  
Superintendent of Schools

# Preface

***This bulletin includes specific requirements for graduation. Students graduating in 2028 should keep this copy of the reference for graduation requirements.***

The 2024–2025 Montgomery County Public Schools (MCPS) High School Course Bulletin provides students and parents/guardians with information about high school courses, programs, and career readiness programs of study. This bulletin contains information about graduation requirements, required state assessments, internships, opportunities for dual enrollment in college, and special programs.

Course selection in high school is critical to the realization of career and higher-education goals. Students should talk to their teachers and school counselor about the courses they need to meet their individual goals.

MCPS offers several hundred interesting and rewarding courses that help prepare students for the demands of the postsecondary world of college and careers. The 2024–2025 MCPS High School Course Bulletin contains all approved courses offered in MCPS. Each MCPS high school offers a wide selection of these courses. Students and parents/guardians should work together to review the course offerings provided at their school, the graduation requirements, and other information in this bulletin. Course descriptions and additional course information are at <http://coursebulletin.montgomeryschoolsmd.org/Home/Parents>.

Throughout this bulletin, you will find URLs directing you to MCPS websites that contain course descriptions, program information, and Montgomery County Board of Education policies or MCPS regulations. In addition, you and your student should review together the *MCPS Student Code of Conduct*, *Student's Guide to Rights and Responsibilities in MCPS*, *Guidelines for Respecting Religious Diversity*, and *Guidelines for Student Gender Identity* found at [www.montgomeryschoolsmd.org/students/rights/](http://www.montgomeryschoolsmd.org/students/rights/) as well as your individual school's *Code of Conduct*.

All course bulletin information is available online. To access the online course bulletin, go to [www.montgomeryschoolsmd.org](http://www.montgomeryschoolsmd.org), click on Parents, then High Schools, then High School Course Bulletin; or go directly to <http://coursebulletin.montgomeryschoolsmd.org/Home/Parents>.

# INTRODUCTION

## MARYLAND DIPLOMA REQUIREMENTS

The state of Maryland authorizes one diploma for all high school graduates, based upon successful fulfillment of four categories of requirements: enrollment, course credit, student service learning (SSL), and Maryland assessments. Students must satisfactorily complete four years beyond Grade 8 to meet the enrollment requirement. All other requirements are summarized in the table below. Please consult the online MCPS course bulletin for 2023-2024 at <http://coursebulletin.montgomeryschoolsmd.org/Home/PlanningTools> or your school counselor for further information.

### College and Career Readiness (CCR)

The *Blueprint for Maryland's Future Act*, House Bill 1372 (HB1372), passed in February 2021. The ultimate goal is to transform Maryland's education system into a world-class model that is competitive, both nationally and internationally, throughout the next ten years. The Blueprint includes the requirement that all students be assessed for CCR in English and mathematics by the end of Grade 10, using measures identified by the state. The assessment measures may include a required state assessment such as MCAP English 10 and/or MCAP Algebra 1. Students who do not meet the CCR standard in English and mathematics by the end of Grade 10 will be required to participate in a support pathway in preparation for reassessment. The reassessment may include the same or different assessments as determined and approved by the state. School counselors and staff will work closely with students to determine the best support pathway for each student. All students who assess CCR will be able to enroll in Advance Placement (AP) courses, Career and Technical Education programs (CTE), Dual Enrollment (College Courses), and/or International Baccalaureate (IB) courses, at no cost to students.

### Course Credits

Students shall be enrolled in Montgomery County Public Schools (MCPS) and have earned a minimum of 22 credits\* that include the following (unless a preapproved MCPS alternative is satisfied):

| MCPS GRADUATION REQUIREMENTS |   |
|------------------------------|---|
| ENGLISH                      | <b>4 credits</b> of organized instruction in comprehension of literary and informational texts, writing, speaking and listening, language, and literacy, of which 1 credit shall be aligned with the Maryland Comprehensive Assessment (MCA) for English.   |
| FINE ARTS                    | <b>1 credit</b> in dance, media arts, music, theatre, or visual art, or a combination of these.   |
| HEALTH EDUCATION             | <b>1 credit</b> in Honors Health Education A (0.5 credit) and Honors Health Education B (0.5 credit). Honors Health Education A is a prerequisite to Honors Health Education B  |
| MATHEMATICS                  | <b>4 credits</b> , 1 including instruction in algebra aligned with the MCA for algebra or 1 or more credits in subsequent mathematics courses for which Algebra 1 is a prerequisite, and 1 with the content standards for geometry. Students must be enrolled in a Math course each year in High School. This may result in students earning more than four credits in Math for graduation. |
| PHYSICAL EDUCATION           | <b>1 credit</b>   |
| SCIENCE                      | <b>3 Next Generation Science Standards (NGSS) credits</b> , including 1 life science credit aligned to the MCA for science, 1 physical science credit, and 1 credit in Earth/space science or an NGSS course with the topics of Earth/space science integrated.   |

## MCPS GRADUATION REQUIREMENTS

|  |   |   |
|--|---|---|
| SOCIAL STUDIES   | 3 credits, 1 U.S. History credit; 1 World History credit; and 1 National, State, and Local Government credit aligned with the MCA for government.   |   |
| COMPUTER SCIENCE, ENGINEERING OR TECHNOLOGY EDUCATION (TE)   | 1 credit designated TE. Courses satisfying this requirement are designated in the course bulletin and includes the study of computers and algorithmic processes or the application of knowledge, tools, and skills to solve practical problems and extend human capabilities. |   |
| ELECTIVES:<br>The additional credits required for graduation may be fulfilled by 1 of the following three options  | OPTION 1  | OPTION 2  |
|  | 2 credits of the same world language, which may include two credits of American Sign Language AND 2 credits in elective courses   | Complete a state-approved program of study (POS) AND a minimum of 0.5 credit in elective courses or more depending on POS |
| STUDENT SERVICE LEARNING (SSL)   | 75 service-learning hours<br>The SSL requirement is prorated for students enrolling or re-enrolling in MCPS after Grade 6.  |   |
| Up-to-date graduation requirements by class may be found at <a href="http://www.montgomeryschoolsmd.org/curriculum/graduation-requirements.aspx">www.montgomeryschoolsmd.org/curriculum/graduation-requirements.aspx</a> . |   |   |

### Enrollment

Students must satisfactorily complete four years of school beyond Grade 8. (For exceptions, see Alternatives to Four-year Enrollment.)

### Immunization Requirements

Students who enter Grade 7 in the 2024–2025 school year, or who were new to MCPS and in Grades 8–12, must receive one dose of the Tetanus-diphtheria-acellular pertussis (Tdap) vaccination and one dose of the Meningococcal conjugate vaccination (MCV4) before the first day of school. Students who do not have the required vaccinations within 20 days of starting school must demonstrate proof of vaccination, positive titer results, or proof of a vaccination appointment.

These vaccinations are required by the state of Maryland for school attendance. Acceptable proofs of vaccinations are a computer-generated vaccination record from the student's health-care provider or the Maryland Department of Health Immunization Certificate (Form 896), found [www2.montgomeryschoolsmd.org/departments/forms/pdf/mdh\\_896\\_form.pdf](http://www2.montgomeryschoolsmd.org/departments/forms/pdf/mdh_896_form.pdf), that is completed by the health-care provider.

Additional information about immunization requirements can be found here: [www2.montgomeryschoolsmd.org/info/immunizations/](http://www2.montgomeryschoolsmd.org/info/immunizations/)

### Maryland Comprehensive Assessment Program

The Maryland Comprehensive Assessment Program (MCAP) consists of tests developed for or adopted by MSDE that are aligned with and measure a student's skills and knowledge as set forth in the content standards for specified courses. The term "MCAP" covers state and federal mandated assessments in English Language Arts/Literacy, Mathematics, Science, and Government at the high school level. Students take these assessments as they complete the corresponding courses. MCAP also includes the Alternate Assessments for select students.

| <b>MARYLAND COMPREHENSIVE ASSESSMENT PROGRAM (MCAP)</b><br>These assessment requirements are subject to change by Maryland State Department of Education (MSDE). |   |
|--|---|
| <b>ALGEBRA 1</b>   | Course credit earned in Algebra 1 <b>AND</b> <ul style="list-style-type: none"> <li>• Pass the Algebra 1 assessment prior to 2019–2020 <b>OR</b></li> <li>• Take the Algebra 1 assessment</li> <li>• If the Algebra 1 course was passed during 2019–2020, a COVID waiver was awarded to meet the assessment requirement. No additional test participation is required and the student's test status will read as "Not Required."</li> </ul> |
| <b>ENGLISH 10</b>  | Course credit earned in English 10 or equivalent, or English 10 for EMLs <b>AND</b> <ul style="list-style-type: none"> <li>• Take the English Language Arts/Literacy assessment</li> </ul>  |
| <b>GOVERNMENT</b>  | Course credit earned in National, State, and Local Government or equivalent <b>AND</b> <ul style="list-style-type: none"> <li>• Take the Government End of Course (EOC) assessment. The EOC is 20% of the National, State, and Local (NSL) Government Semester B grade. AP Government students must take either the AP Government Exam or the MCAP Government EOC assessment.</li> </ul>  |
| <b>SCIENCE</b>   | Course credit earned in Biology or equivalent, <b>AND</b> <ul style="list-style-type: none"> <li>• Take the Life Science End of Course (EOC) assessment. The EOC is 20% of the Biology Semester B grade. AP Biology students must take the Biology EOC assessment.</li> </ul>   |

<sup>1</sup> *Substitute Test: Students earning qualifying scores on substitute tests (AP/IB) will meet the MCA requirement in that content area.*  
<sup>2</sup> *Transfer Credit: Students transferring from outside Maryland public schools may be eligible to meet some MCA content-area requirements with transfer credit.*

For additional information regarding MCPS graduation requirements visit [www.montgomeryschoolsmd.org/curriculum/graduation-requirements.aspx](http://www.montgomeryschoolsmd.org/curriculum/graduation-requirements.aspx).

### Promotion Regulation

MCPS Regulation JEB-RA, *Placement, Promotion, Acceleration, and Retention of Students* ([www.montgomeryschoolsmd.org/departments/policy/pdf/jebra.pdf](http://www.montgomeryschoolsmd.org/departments/policy/pdf/jebra.pdf)), requires that high school students earn 5 credits each year in order to be promoted, including specific required credits in English, mathematics, science, and social studies, as indicated in the chart below.

| End of:  | Total Credits Needed for Promotion to Next Grade | TOTAL CREDITS IN REQUIRED COURSES |         |         |                |   |
|----------|--|-----------------------------------|---------|---------|----------------|---|
|          |  | Math                              | English | Science | Social Studies | Other Courses—See Options Required for Graduation |
| Grade 9  | 5  | 1                                 | 1       | 0       | 0              | 3   |
| Grade 10 | 10   | 2                                 | 2       | 1       | 1              | 4   |
| Grade 11 | 15   | 3                                 | 3       | 2       | 2              | 5   |

### Special Education Instruction

If a student has an Individualized Education Program (IEP), the student will continue to receive the identified special education services as they transition to high school. Students may receive instruction in a variety of service-delivery models in the middle school setting to acquire skills and knowledge. The array of services could include, but is not limited to, consultation with special education personnel about instruction, direct service within the general education classroom, pull-out service in a resource room, direct service within a self-contained special education classroom, or some combination of the above. If you suspect that your child may have an educational disability and may require an evaluation, please contact the school counselor for information.

### Maryland High School Certificate of Program Completion

This certificate is awarded only to students with disabilities who cannot meet the requirements for a diploma, but who meet the standards set forth in the Code of Maryland Regulations §13A.03.02.09, and MCPS Regulation ISB-RA, *High School Graduation Requirements*, found at [www.montgomeryschoolsmd.org/departments/policy/pdf/isbra.pdf](http://www.montgomeryschoolsmd.org/departments/policy/pdf/isbra.pdf). All students will be considered diploma-bound and will be assessed and graded accordingly, unless and until an Individualized Education Program (IEP) team determines that a student meets the criteria to be determined eligible to participate in instruction and assessments aligned with alternate academic achievement standards and the IEP team obtains written consent from the parent/guardian.

### Montgomery County Public Schools Certificate of Merit

In addition to the Maryland high school diploma, students who meet the following requirements may be awarded the MCPS Certificate of Merit, a diploma endorsement:

- **Advanced Courses**—Students must earn at least 12 credits in advanced courses designated by MCPS as applicable to the Certificate of Merit (CM). CM courses contribute to a weighted grade point average only when the course also is identified as Advanced Level (AL). All courses to be counted toward the Certificate of Merit must be taken for a letter grade.
- **Mathematics Requirement**—Students must successfully complete and/or receive credit for an MCPS Algebra 2 course.
- **Cumulative Grade Point Average**—Students must obtain at least a 3.0 unweighted cumulative grade point average.

### Maryland Seal of Biliteracy

Maryland Seal of Biliteracy is awarded to high school graduates who can function in two or more languages and are equipped with the knowledge and skills to participate successfully in college, careers, and a diverse 21st century society. The Maryland Seal of Biliteracy is a diploma endorsement, authorized by Maryland law, that recognizes a student's high level of proficiency in listening, speaking, reading, and writing in one or more languages other than English. To receive a Maryland Seal of Biliteracy, a student must do the following:

- Pass the Maryland High School Assessment in English 10; **AND**
- Demonstrate Intermediate High proficiency in listening, speaking, reading, and writing in a language other than English, as measured by assessments that are aligned to ACTFL (the American Council on the Teaching of Foreign Languages) proficiency guidelines.

For more information about the approved assessments, please visit the website <https://marylandpublicschools.org/about/Documents/DCAA/World-Languages/biliteracy/MSDEACTFLAlignedAssessments.pdf>.

### Courses and Credits

Each MCPS high school provides a comprehensive program of studies that enables all students to earn required graduation credits. All high school courses are one semester long. All courses satisfying graduation requirements must be taken for a letter grade. Upon completion of each semester's work, students earn credit in each course taken—0.5 credits for successful completion of a single-period course, 1 credit for a double-period course, and so on. Year-long courses usually have the same name for the two semesters with the title of the first semester followed by "A" or "1" and the second by "B" or "2." Generally, the first semester of a course is a prerequisite for the second semester.

## Student Service Learning

The Student Service Learning (SSL) program in MCPS promotes a culture of student involvement and student responsibility through civic engagement. Service learning is a graduation requirement in Maryland. MCPS students must complete a minimum of 75 service-learning hours to graduate. They may begin fulfilling this requirement in the summer after Grade 5 and continue to accrue SSL hours through high school. Students who earn 240 or more SSL hours receive a *Certificate of Meritorious Service* at the time of graduation. Preparation, action, and reflection are the three phases of service learning that distinguish SSL from traditional volunteering and community-service efforts.

Service learning hours are earned through the following:

- **School Courses**—Successful completion of specific courses identified in this course bulletin where the three phases of SSL achieve curricular objectives.
- **School Clubs**—Fully participating and completing the three phases of service learning in service activities promoted by school-sponsored clubs and organizations.
- **Community Organizations and Opportunities (must meet MCPS SSL guidelines)**—Fully participating in opportunities with community organizations following the MCPS SSL guidelines listed on the MCPS SSL website, found at [www.mcps-ssl.org](http://www.mcps-ssl.org). MCPS SSL opportunities are identified on the Montgomery County Volunteer Center (MCVC) web page with the MCPS SSL icon, found at [www.montgomeryserves.org](http://www.montgomeryserves.org). Students also may seek approval for other types of service learning by submitting MCPS Form 560-50, *Individual Student Service Learning Request*.

All in-person activities for which SSL hours are desired must occur in a public place, be secular in nature, and be supervised by an adult representative from a nonprofit, tax-exempt organization. Students may also engage in designated virtual/remote SSL opportunities under the sponsorship of an approved nonprofit organization or MCPS staff member. Parents/guardians and relatives may not supervise a student directly. One SSL hour is awarded for every one hour of service outside of the instructional day, with a maximum of 8 hours in a 24-hour period. MCPS Form 560-51, *Student Service Learning Activity Verification*, is required to document all activities for which SSL hours are desired. SSL FAQs and more information is available at the MCPS SSL website [www.mcps-ssl.org](http://www.mcps-ssl.org) and the MCVC website [www.montgomeryserves.org](http://www.montgomeryserves.org). For individual SSL questions, please contact the SSL coordinator in any middle or high school.

## High School Credit for Middle School Students

Class of 2025 (first time Grade 9 in 2021–2022)—by default high school credit courses taken in middle school are included on a high school transcript, but grade points are not calculated into the cumulative GPA. An automated process at the end of each semester will determine which courses to include or exclude resulting in the highest cumulative GPA. Transcripts and the Student Grade and Graduation Credit Report (SGGCR) generated after mid-February will reflect this GPA.

Additional information about secondary grading can be found here: <https://www.montgomeryschoolsmd.org/info/grading/report-cards-secondary.aspx>.

Middle school students must meet the same requirements as high school students by earning a final grade of A, B, C, or D each semester. Additional information is in MCPS Regulation IKC-RA, *Grade Point Averages (GPA) and Weighted Grade Point Averages (WGPA)*, found at [www.montgomeryschoolsmd.org/departments/policy/pdf/ikcra.pdf](http://www.montgomeryschoolsmd.org/departments/policy/pdf/ikcra.pdf).

## Honors, Advanced-Level, Advanced Placement, and International Baccalaureate Courses

Honors (H), Advanced-Level (AL), Advanced Placement (AP), and International Baccalaureate (IB) courses provide opportunities for students to pursue rigorous and challenging studies. Students seeking an IB diploma or participating in a certificate program must meet the requirements of the program in addition to the MCPS requirements for graduation. Teachers, counselors, and parents/guardians will work together to support each student's progress in these challenging courses.

- **Honors Courses**—Honors courses provide expectations and opportunities for students to engage in more rigorous and complex content and processes and to develop authentic products that reflect the student's understanding of key concepts. The curriculum in each Honors course includes appropriate adaptations for enriched learning to pursue in-depth studies that require abstract and higher-order thinking skills.
- **AL Courses**—AL courses are based on previous achievement in a sequence of study. Advanced-level courses include appropriate adaptations for accelerated and enriched learning to pursue in-depth studies that require abstract and higher-order thinking skills.
- **College Level(CL)/ Dual Enrollment**—Students who successfully complete a college course for dual credit will receive 1 advance level credit on their high school transcript. Read more about Dual Enrollment on page 11.
- **AP Courses**—MCPS has developed courses that meet College Board guidelines to accompany the AP examinations. A qualifying score on an AP exam may earn the student college credit or advanced standing in the subject in college. All MCPS AP courses meet the requirements of and are approved by the College Board Audit Committee and include concepts and skills that help students prepare for the AP exams.
  - **AP Exam Registration**—Students must register for AP exams by November 15th for full year AP courses and March 15th for second semester AP courses.
  - **AP Exam Fees**—Students enrolled in an AP course for the 2023–2024 school year will take the AP exams at no cost.

## COURSE-RELATED INFORMATION

### Student Withdrawal from a Course

A student-initiated withdrawal may occur when the student and parent/guardian determine that withdrawal will be beneficial to the student. Additional information is in MCPS Regulation JEC-RA, *Student Withdrawals from Classes and School*, found at [www.montgomeryschoolsmd.org/departments/policy/pdf/jecra.pdf](http://www.montgomeryschoolsmd.org/departments/policy/pdf/jecra.pdf). An eligible student's withdrawal (one who is 18 years of age or older or is emancipated) must be reviewed by the counselor and may be discussed with the parents/guardians. If the student is not an eligible student, the student's withdrawal request must be approved by the parent/guardian in writing, reviewed by the counselor, and discussed with the student to ensure that the student understands that withdrawing from the course may result in a possible delay in meeting graduation requirements. Then, the counselor's recommendation is forwarded to the principal for approval.

The student must be presented with alternatives to withdrawing from a course. The student may transfer into another course within the same subject area for which the student has had adequate academic preparation. If no such alternative is available, the student may transfer into an appropriate elective course. Administrators/designees have discretion to adjust student schedules if necessary and as appropriate.

- If a student withdraws from a course before the end of the 25th day of the semester, no notation is made on the student's permanent record or report card.
- If the student withdraws after the 25th school day of the semester in which the class begins, a notation of "W," or "Withdrew," the date of the withdrawal, and the average grade at the time of withdrawal will be entered on the permanent record, transcript, and report card.
- Should the student, with prior approval, transfer from an honors- or advanced-level course to an on-level course in the same subject area (IKC-RA course-level change) after the 25th school day of the semester, no notation is made on the student's permanent transcript, and appropriate credit is awarded for those courses completed successfully. The Office of Curriculum and Instructional Programs may designate approved on-level transfers for certain courses, which will be set forth in implementation guidance and available from school counselors.

Additional information about withdrawal and student eligibility for extracurricular activities is in MCPS Regulation IKC-RA, *Grade Point Averages (GPA) and Weighted Grade Point Averages (WGPA)*, found at [www.montgomeryschoolsmd.org/departments/policy/pdf/ikcra.pdf](http://www.montgomeryschoolsmd.org/departments/policy/pdf/ikcra.pdf), and in MCPS Regulation IQD-RA, *Academic Eligibility for High School Students Who Participate in Extracurricular Activities*, found at [www.montgomeryschoolsmd.org/departments/policy/pdf/iqdra.pdf](http://www.montgomeryschoolsmd.org/departments/policy/pdf/iqdra.pdf).

## Other Provisions for Earning Credit

In addition to earning credits during the regular school day and year, students may earn high school credits through summer school, extended-day learning opportunities, work-experience programs, online courses, and college courses. **Advance permission from the principal or designee is required** in all cases involving other provisions for earning credit.

Online courses must be approved by MSDE and MCPS. See the list of online courses approved by MCPS for credit toward graduation at [www.montgomeryschoolsmd.org/departments/onlinelearning/](http://www.montgomeryschoolsmd.org/departments/onlinelearning/).

It is critical that students and their parents/guardians consult with academic advisors/counselors **prior to registering** for courses for which they intend to obtain credits to meet high school graduation requirements. More information about other provisions for earning credit are discussed in MCPS Regulation ISB-RA, *High School Graduation Requirements*, found at [www.montgomeryschoolsmd.org/departments/policy/pdf/isbra.pdf](http://www.montgomeryschoolsmd.org/departments/policy/pdf/isbra.pdf).

## Alternatives to Four-year Enrollment

In recognition of the fact that four-year enrollment in a public high school may not serve the best interests of some students, alternatives are available. Requirements include advance permission from the principal or designee; an alternative plan developed, with enough lead time to allow a decision to be made at least one full semester prior to anticipated enrollment in a specific course or program; and a waiver. Approval may be made contingent on the student's acceptance to an approved college, vocational, technical, or other postsecondary school program. Required forms, reasons for which waivers are approved, and additional information about alternatives to four-year enrollment are discussed in MCPS Regulation ISB-RA, *High School Graduation Requirements*, found at [www.montgomeryschoolsmd.org/departments/policy/pdf/isbra.pdf](http://www.montgomeryschoolsmd.org/departments/policy/pdf/isbra.pdf).

## Taking Courses Not Available at the Student's Home School

Students who wish to take courses not available at their home school must apply through the counseling office at their home school.

## Attendance

A commitment to school attendance, on the part of both students and parents/guardians, is an essential component of a high-quality learning experience. Parents/guardians and school personnel are expected to do everything possible to ensure each student's regular attendance. Students should attend all scheduled classes and approved educational activities and are responsible for completing all assigned work on time. Students should be enrolled in a full-day program or spend a comparable period of time in an alternative education program or activity approved by the student's parent/guardian and principal. See MCPS Regulation JEA-RA, *Student Attendance*, at [www.montgomeryschoolsmd.org/departments/policy/pdf/jea.pdf](http://www.montgomeryschoolsmd.org/departments/policy/pdf/jea.pdf) and *Guidelines for the Continuing Education for Pregnant and Parenting Students*, at [www.montgomeryschoolsmd.org/departments/policy/pdf/ioera.pdf](http://www.montgomeryschoolsmd.org/departments/policy/pdf/ioera.pdf).

## GRADING AND REPORTING

The Board of Education is committed to maintaining rigorous performance and achievement standards for all students and to providing a fair process for evaluating and reporting student progress that is understandable to students and their parents/guardians and relevant for instructional purposes. The Board Policy IKA, *Grading and Reporting* ([www.montgomeryschoolsmd.org/departments/policy/pdf/ikara.pdf](http://www.montgomeryschoolsmd.org/departments/policy/pdf/ikara.pdf)), and accompanying MCPS Regulation IKA-RA, *Grading and Reporting* ([www.montgomeryschoolsmd.org/departments/policy/pdf/ikara.pdf](http://www.montgomeryschoolsmd.org/departments/policy/pdf/ikara.pdf)), set forth expectations and guidance. The office of the Associate Superintendent of Curriculum and Instructional Programs publishes procedures at [www.montgomeryschoolsmd.org/info/grading/](http://www.montgomeryschoolsmd.org/info/grading/).

## Procedures for Grading

Grading procedures will be applied consistently within and among schools. Grading practices must include clear and timely communication, alignment with curriculum, accurate reflection of student achievement, and fair representation of student performance. Grading practices must be fair and manageable and support effective teaching and learning. Grades on report cards reflect academic achievement in relation to course expectations, as outlined in the MCPS curriculum. Extra credit may not be used. Course specific procedures for grading are defined, used consistently, and explained clearly to students and parents/guardians in writing at the beginning of a semester or school year. Additional information about grading and reporting can be found at <https://www.montgomeryschoolsmd.org/departments/policy/pdf/ikara.pdf>.

## Districtwide Assessments

Required assessments administered districtwide are one component of the body of evidence.

- A districtwide assessment is required to be given at designated times in identified grade levels and identified middle and high school courses.

## Reporting Student Progress

Teachers will provide students and parents/guardians with information about achievement throughout the marking period. This feedback may take several forms, including the following:

- Report cards
- Interims/progress reports
- Online grade reports
- Parent conferences
- Informal methods of communication
- Teacher feedback

## Credit/No Credit Grading Option

- The Credit/No Credit grading option may be used only in courses not specifically required for graduation by MSDE or MCPS.
- Courses taken using the Credit/No Credit option cannot be applied toward a Certificate of Merit.

## Grade Point Average (GPA) and Weighted Grade Point Average (WGPA)

Only final course grades and credit reported on high school transcripts are used in determining GPA and WGPA, in accordance with the procedures set forth in MCPS Regulation IKC-RA, *Grade Point Averages and Weighted Grade Point Averages* ([www.montgomeryschoolsmd.org/departments/policy/pdf/ikcra.pdf](http://www.montgomeryschoolsmd.org/departments/policy/pdf/ikcra.pdf)). To determine WGPA, an additional quality point will be added to grades of A, B, and C in all Honors, AL, and AP courses only.

A Marking Period Average (MPA), used in determining academic eligibility for interscholastic athletics, is shown on student report cards. The MPA is not cumulative and is not used to establish the GPA or WGPA. For information about conditions under which the MPA applies to interscholastic athletics, please see <https://ww2.montgomeryschoolsmd.org/departments/policy/detail.aspx?recID=248&policyID=IQD-RA&sectionID=9>

MCPS does not rank students. See additional information about grading and reporting at [www.montgomeryschoolsmd.org/info/grading/](http://www.montgomeryschoolsmd.org/info/grading/).

## Repeating a Course to Earn a Higher Grade and Repeating a Portion of a Course (Credit Recovery)

Any student who completes a high school course may retake the course for a replacement grade. Eligible students may retake a portion of the course for credit recovery. Grades and credits for courses retaken will be treated as follows, for computing the GPA and WGPA: a) a course may be retaken, no matter the final grade; b) the highest of the grades received shall be entered on the student's transcript and shall be used for the purpose of computing GPA/WGPA; c) students may only replace a course with a course of the same or comparable course code, as authorized by the associate superintendent of Curriculum and Instructional Programs; or d) if space in a class is limited, students taking a course for the first time have priority for placement in the class over students retaking the course. Upon completion of the course, their official transcript and GPA/WGPA will reflect only the higher mark earned. Further information can be found in MCPS Regulation IKA-RA, *Grading and Reporting*, found at <https://www.montgomeryschoolsmd.org/departments/policy/pdf/ikara.pdf> and MCPS Regulation IKC-RA, *Grade Point Averages (GPA) and Weighted Grade Point Averages (WGPA)*, found at [www.montgomeryschoolsmd.org/departments/policy/pdf/ikcra.pdf](http://www.montgomeryschoolsmd.org/departments/policy/pdf/ikcra.pdf), or by contacting the student's counselor or College and Career Readiness and Districtwide Programs, 240-740-3941.

## School Library Media Program

As a teacher and collaborator, school library media specialists contribute to the development of students who are equipped with the knowledge and skills to read, evaluate, and utilize print and digital resources for curricular and personalized learning needs.

The guiding principles for an instructional approach to a robust school library media program:

- School library media specialists support literacy and student achievement
- School library media specialists are teachers and instructional partners
- School library media programs provide unique virtual learning environments
- School library media staff members advocate for equity and foster connections

School library media specialists enrich the learning environment by expertly vetting and sharing award-winning books and appropriate approved digital tools by providing updated collections and embracing the integration of innovative technologies. In addition,

school library media specialists share information related to emergent issues in regard to accessibility, privacy, digital ethics, and copyright guidance.

A well-rounded school library media program maximizes student and teacher access to resources, programming, and instruction and provides opportunities to immerse all students in literacy-rich environments. School library media programs support students with the access and use of online resources, including eBooks (Sora, Capstone Interactive, Montgomery Public Library eBooks, etc.).

Whether independently or in collaboration with other teachers, school library media specialists must continue to ensure that students are able to efficiently, effectively, and ethically access and utilize print and digital resources for lifelong learning in multiple literacies. Instruction and collaboration can occur in distance learning, hybrid, or in person models.

Information literacy standards are embedded in content areas. Information literacy skills are grounded in classroom content because, when taught in isolation, they do not provide an authentic learning experience that is relevant to students. School library media specialists can be added as co-teachers to the classrooms in order to support any content area with information literacy standards. Digital citizenship is a component of information literacy and should be taught in the context of a larger lesson that requires practice in safe searching, safe sharing of information, etc.

## Academic Eligibility for Participation in Interscholastic Athletics

As a district committed to nondiscrimination, equity and cultural responsiveness, the Board of Education seeks to balance the state and collegiate expectations with its interest in making interscholastic sports, accessible to as many students as possible. Academic eligibility requirements for high school students participating in interscholastic sports are established in MCPS Regulation IQD-RA, *Academic Eligibility for High School Students Who Participate in Interscholastic Athletics*. Students who have a 2.0 average with no more than one failing grade in the previous marking period will be academically eligible to participate or practice during the next marking period. Eligibility standards become effective as of a student's second year in any high school, as initially determined by their marking period average in the fourth quarter of their first year of high school. Additional information about academic eligibility may be found in Board Policy IQD, *Extracurricular Activities* at [ww2.montgomeryschoolsmd.org/departments/policy/pdf/policy%20iqd%20english.pdf](https://ww2.montgomeryschoolsmd.org/departments/policy/pdf/policy%20iqd%20english.pdf), and MCPS Regulation IQD-RA, *Academic Eligibility for High School Students Who Participate in Interscholastic Athletics*, at [www2.montgomeryschoolsmd.org/siteassets/schools/high-schools/r-w/rmhs/uploadedfiles/athletics/academiceligibility20.pdf](http://www2.montgomeryschoolsmd.org/siteassets/schools/high-schools/r-w/rmhs/uploadedfiles/athletics/academiceligibility20.pdf).

## National Collegiate Athletic Association (NCAA) Eligibility Center

The National Collegiate Athletic Association established the NCAA Eligibility Center to serve as the authorizing group for the final review and approval of core courses for freshmen college students who want to participate in intercollegiate athletics in NCAA Division I-A, I-AA, and II colleges and universities. The NCAA Eligibility Center Approved Core Courses are identified in the course bulletin with the symbol NCAA. In all cases, the list of eligible courses available on the NCAA Eligibility Center website represents the final determination of acceptable core courses. To learn more about NCAA Approved Core Courses or about NCAA Freshmen Eligibility Standards, contact the local school resource counselor and visit the NCAA-IEC website at [www.ncaa.org/sports/2021/2/8/student-athletes-future.aspx](http://www.ncaa.org/sports/2021/2/8/student-athletes-future.aspx). Students may download the NCAA student document at [http://fs.ncaa.org/Docs/eligibility\\_center/Student\\_Resources/CBSA.pdf](http://fs.ncaa.org/Docs/eligibility_center/Student_Resources/CBSA.pdf).

# Montgomery County Public Schools

## Sample Student Planner

This is a sample pathway schedule that may be tailored to meet a student's individual needs. All students must take prescribed English, math, science, social studies, and other courses required for a Maryland high school diploma.

| GRADE 9  | GRADE 10  | GRADE 11  | GRADE 12   |
|--|---|---|--|
| <b>ENGLISH (4 credits)</b>   |   |   |  |
| English 9/Honors   | English 10/Honors   | English 11/Honors/IB/AP   | English 12/Honors/IB/AP  |
| <b>MATHEMATICS (4 credits)</b>   |   |   |  |
| Algebra 1, Geometry/Honors, <b>or</b> Algebra 2/Honors   | Geometry/Honors, Algebra 2/Honors, <b>or</b> Precalculus/Honors   | Algebra 2/Honors, Precalculus/Honors <b>or</b> AP Calculus AB/BC <b>or</b> Statistics <b>or</b> IB Math | Precalculus/Honors, <b>or</b> IB Math, AP Calculus AB/BC <b>or</b> AP Statistics/College Level Math Beyond AP Calculus |

| <b>ELECTIVE OPTIONS Students can fulfill graduation requirements by one of the two options</b>   |   |   |  |
| <sup>1</sup> World Languages<br>Students must take two years of the same world language.   | <sup>1</sup> World Languages<br>Students must take two years of the same world language.                                      | <sup>3</sup> Elective (all content areas) <b>OR</b> Elective Option Coursework                          | <sup>3</sup> Elective (all content areas) <b>OR</b> Elective Option Coursework   |
| <sup>4</sup> Career Readiness POS  | <sup>4</sup> Career Readiness POS   | <sup>4</sup> Career Readiness POS   | <sup>4</sup> Career Readiness POS  |

<sup>1</sup> **World Languages:** Choose from languages available at your school. Students may fulfill World Language graduation option in middle school.

<sup>2</sup> **Computer Science, Engineering or Technology Education (TE):** Students may fulfill Technology Education graduation requirement in middle school.

<sup>3</sup> **Electives:** Elective courses are available for all content areas, including fine arts, technology education, and physical education. Elective coursework varies at each high school. Please check with the school for course availability.

<sup>4</sup> **Career Readiness POS:** Career Readiness POS varies at each high school. Please check with the school for program availability.

<sup>5</sup> **Science:** Choose from courses approved for graduation credit to fulfill each category of science credit. Please check the science course options in bulletin.

## MCPS COUNTYWIDE/REGIONAL PROGRAMS

MCPS offers a range of high school programs to meet the unique interests or programmatic needs of students. Programs are offered at the local high school level or through an application process at the regional or countywide level. These programs may include enriched/accelerated, thematic, career readiness, or dual enrollment.

### Local School Programs

In addition to offering a comprehensive high school program, a number of high schools have created programs that integrate a specific focus or distinguishing theme with skills, concepts, and instructional strategies of some portion of a school's curriculum. The theme or focus becomes the vehicle for teaching the traditional high school curriculum in a fresh, interesting, and challenging way. All high schools offer a wide range of robust college and career programs that prepare students for college and the workforce. For additional information about local programs offered at a student's home school, please visit the home school website.

### Career Readiness Programs of Study (POS)

Programs of Study (POS) are state-approved programs that satisfy the Career Readiness graduation option requirements and are designated by POS in this bulletin. Each program is designed to help students acquire the specialized knowledge, skills, attitudes, and work habits required for employment and postsecondary education.

Students seeking to enroll in a POS with a work-based learning component may be required by the employer or sponsoring organization to provide appropriate documentation that may include a social security number and/or proof of citizenship/green card. Please review program information and POS requirements carefully for specific work-based learning component guidelines.

### MCPS Regional Career Readiness Programs

Some career readiness POS are offered to high school students through a regional choice model, to ensure access to programs when not offered in the student's home school.

These programs are available at designated high schools and offer limited seats to students from designated regions of the county. Student participation is determined by an application process. Grades 8–11 students from designated regions of the county are eligible to apply to the following application programs:

- Fire Science and Rescue at Home School and MC Public Safety Training Academy
- Flight and Aircraft Systems at Col. Zadok Magruder HS
- Network Operations & Information Technology (P-TECH) at Clarksburg HS
- Project Lead The Way Biomedical at Gaithersburg HS, Rockville HS and Wheaton HS
- Project Lead The Way Engineering at Rockville HS and Wheaton HS
- Seneca Valley Regional Programs
- Junior Reserve Officers Training (JROTC) at Gaithersburg, Kennedy, Paint Branch and Seneca Valley
- MCPS Apprenticeship Maryland Program
- IEC Electrical School to Apprenticeship

These are just a few examples of the programming options available. Extensive information about MCPS career readiness programs of study is available online at [www.montgomeryschoolsmd.org/career-readiness/](http://www.montgomeryschoolsmd.org/career-readiness/). For a more complete list and information about the various special programs available to students entering high school and beyond, visit [www.montgomeryschoolsmd.org/curriculum/specialprograms/high/](http://www.montgomeryschoolsmd.org/curriculum/specialprograms/high/).

## Regional College and Career Programs at Wheaton/Thomas Edison High School of Technology (TEHST) and Seneca Valley High School

Regional College and Career programs provide all MCPS students with the opportunity to co-enroll in advanced academic, technical, and career programs. The mission of college and career readiness programs is to provide students with state-of-the-art technological, academic, and interpersonal skills needed to achieve excellence in their chosen fields of study. The variety of career readiness programs offered allow students to explore and experience traditional and nontraditional career options and to prepare for college and a wide range of expanding and challenging postsecondary options. Students enroll in college and career readiness programs through their home school and take courses at both the home school and at the Regional College and Career Program location. Students may also be eligible to apply to a full-time comprehensive regional program at a college and career readiness programs location. Bus transportation is provided. All programs offered at Regional College and Career Program sites are state-approved and meet the career readiness graduation option requirements for students.

### Foundations Programs

The Montgomery County Student Foundations Office serves as a liaison between the business/professional community and MCPS, by coordinating four separate nonprofit educational foundations that prepare students for a wide range of postsecondary options within the automotive, construction, information technology and computer science, and the hospitality and restaurant management industries. Programs provide instruction in classroom and laboratory settings with state-of-the-art technology and authentic, real-world experiences for students through rigorous curriculum, career programs of study, industry certification opportunities, community business partnerships, entrepreneurial projects, scholarships/awards, SSL hours, and articulation agreements through which students may earn college credit. Additional information is at [www.montgomeryschoolsmd.org/curriculum/foundations/](http://www.montgomeryschoolsmd.org/curriculum/foundations/) or contact the Foundations Office at 240-740-2050.

- **Automotive Trades Foundation Programs (ATF)**—ATF programs are located at
  - Damascus
  - Gaithersburg
  - Seneca Valley, and
  - Thomas Edison HS.

The ATF hosts 3 student-run car sales each year and students have refurbished more than 2,000 vehicles to date. Some years students also renovate a vehicle to gift to a local charitable organization.

- **Aviation Pilot Program**—Located at Col. Zadok Magruder High School. This is a four year pilot program for either manned or unmanned (UAS) flight. Students must choose to make Magruder HS their home school to participate in this program. Bussing is available from Gaithersburg, Rockville, and Sherwood High Schools.

- **Construction Trades Foundations Program**—Construction Trades Foundation programs are located at
  - Thomas Edison High School of Technology, and
  - Seneca Valley HS.

Students design, construct, and market student-built houses. Forty-three houses have been built and sold thus far in Montgomery County. Students currently are constructing the 44th home.

- **Information Technology and Computer Science Programs**—Information Technology programs in computer maintenance and networking (Network Operations) are located at

- Clarksburg High School
- Thomas Edison High School of Technology, and
- Seneca Valley High School.

Students in these programs refurbish, market, and sell donated computers to the community and donate a lab each year to a deserving Montgomery County nonprofit organization.

**IT Networking Academy (CISCO)** are located at five high schools

- Damascus
- Gaithersburg
- Quince Orchard
- Springbrook, and
- Wootton.

Students in all programs can earn valuable industry-standard CompTIA certifications and college credits and can obtain internships in the IT field.

**The Computer Science Pathway**, which includes a robotics unit, is offered in 25 high schools. Students can take AP courses in the pathway as well as earn college credits and obtain internships.

**Mobile Applications and Software Development Program of Study at Walter Johnson High School** allows students to design and build a fully-functioning in Swift and XCode. Students can earn industry certification in App Development in Swift: Level 1.

The **Clarksburg Pathways in Network and Information Technology Program (P-TECH)** is a dual-enrollment program that allows students to earn both an MCPS high school diploma and an Associate of Applied Science (ASS) degree from Montgomery College, at no cost, while in high school. This program is offered exclusively at Clarksburg High School, and the only entry point for this program is at the beginning of ninth grade.

**Academy of Information Technology (AOIT)**—Web Design offers students opportunities to explore careers related to website development and database administration. This program is offered at schools currently offering AOIT with NAF: Gaithersburg High School, Springbrook High School, Wheaton High School and Thomas S. Wootton High School.

- **Hospitality and Restaurant Management Program**—In 2019, the Foundation for Hospitality & Restaurant Management (FHRM) was established to develop and engage the hospitality and restaurant industry to partner with MCPS in support of the Academy of Hospitality and Tourism Management POS and the Professional Restaurant Management POS. In collaboration with the business community, the Foundation is in the process of reviewing and updating curriculum material, and identifying career-enriching experiences for students who want to study and learn about career opportunities within the hospitality industry.
- **Career Readiness Education Academy (CREA)**—The Career Readiness Education Academy (CREA) is an academic and career readiness program for older Emergent Multilingual Learners (EMLs) in MCPS. Students in CREA have the opportunity to prepare for the GED exam and earn industry certifications in their chosen field of study. Students are referred to CREA if they are at least 18 years old and unlikely to meet graduation requirements before turning 21 and/or if they are interested in pursuing an alternative pathway to a high school diploma via GED preparation. CREA offers both full-day and evening programs at Thomas Edison High School of Technology and Seneca Valley High School.

## The Visual Art Center (VAC) at Albert Einstein High School

The Visual Art Center (VAC) offers students a broad perspective of the fine arts and deepens their understanding of the opportunities for art-related careers through exposure to contemporary artists and artwork. This rigorous and comprehensive program, directed toward portfolio development, enables students to realize and achieve their full potential in visual art. Lessons consist of lectures, demonstrations, slide presentations, studio activities, assigned research and group critiques. Most graduating students study fine arts or commercial art at a higher level. Any student who resides in Montgomery County and is currently enrolled in Grades 8–11 is encouraged to apply for acceptance into this magnet program, if they are interested in a rigorous portfolio-development program. The VAC program is open to applicants from all high school clusters in the county. As of next school year, the VAC is not a part time program. Students must transfer to Einstein. Downcounty Consortium (DCC) resident students who have been assigned to Einstein through the choice process and have been accepted into the Visual Arts Center will be provided transportation from Consortia neighborhood stops. For more information, contact the MCPS Visual Arts Center at 240-740-2700 or go to [www.montgomery-schoolsmd.org/schools/vac/](http://www.montgomery-schoolsmd.org/schools/vac/).

## High School Science/Mathematics/Computer Science Magnet Program at Montgomery Blair HS and Poolesville HS

Recognizing that education is an individual experience that depends on the unique talents and interests of each person, the mission of the MCPS High School Science/Mathematics/Computer Science Magnet Program is to provide an environment in which each student's education is maximized by emphasizing the interrelationships among the disciplines, developing a repertoire of problem-solving techniques and pursuing both independent and collaborative research projects.

To realize this mission, the staff nurtures the special talents of its students, challenging them through a unique, diversified curriculum that fosters individualism, independent thinking, and self-confidence. Students construct their own knowledge base, learn problem-solving strategies that foster a multidisciplinary approach, and develop the ability to think precisely and creatively.

The curriculum is designed to enable each student to build a solid foundation in Grades 9 and 10. Core courses in these first two years include physics, chemistry, Earth science, biology, two years of computer science, two years of mathematics, and an interdisciplinary course—Research and Experimentation for Problem Solving. During their junior and senior years, students have opportunities to go beyond traditional high school offerings with more than 25 special courses and independent research projects, while still meeting MSDE requirements (e.g., enrollment in mathematics).

## The International Baccalaureate (IB) Diploma Programs in MCPS

The International Baccalaureate Diploma Programme is a rigorous two-year program that challenges students to think critically, excel in their studies, and develop as global citizens, leading to a qualification that is recognized by universities around the world. To earn an IB diploma, students must take a challenging liberal arts course of studies and pass examinations in six academic subjects.

The IB Diploma programme is offered at the following schools:

- Albert Einstein High School (for students who attend Einstein HS)
- Bethesda-Chevy Chase High School (for students who attend B-CC HS)
- John F. Kennedy High School (Regional application)

- Richard Montgomery High School (Countywide application)
- Rockville High School
- Seneca Valley High School (for students who attend Seneca Valley HS)
- Springbrook High School (Regional application)
- Watkins Mill High School (Regional application)

The following IB programmes are application-based. The application process takes place in Grade 8.

- Richard Montgomery High School (Countywide)
- John F. Kennedy High School (Regional)
- Springbrook High School (Regional)
- Watkins Mill High School (Regional)

## International Baccalaureate Career-related Programme (IB CP)

The International Baccalaureate® (IB) Career-related Programme (CP) is a framework of international education that incorporates the values of the IB into a unique programme addressing the needs of students engaged in career-related education. The CP is designed to prepare students for higher education, an internship or apprenticeship, or a position in a designated field of interest.

In addition to the IB Diploma Programme, the International Baccalaureate (IB) Career Programme is offered at

- Watkins Mill High School
- Rockville High School
- Seneca Valley High School

## International Baccalaureate/Middle Years Programme (MYP)

The MYP is designed for students ages 11 to 16. It provides a framework of learning that encourages students to become creative, critical, and reflective thinkers. The MYP emphasizes intellectual challenge, encouraging students to make connections between their studies in traditional subjects and the real world. It fosters the developmental skills for communication, intercultural understanding, and global engagement—essential qualities for young people who are becoming global leaders. Students engage in research and acquire critical-thinking skills through all subject areas, as well as study a second language. MYP is authorized and offered as a whole-school program for Grades 9 and 10 at

- Bethesda-Chevy Chase High School,
- Seneca Valley High School (\*IB candidate school),
- John F. Kennedy High School,
- Richard Montgomery High School,
- Springbrook High School, and
- Watkins Mill High School.

The MCPS IB programme website, <https://www.montgomeryschoolsmd.org/curriculum/specialprograms/high/ib.aspx/>, contains links to each school's program and admission process. Each high school offering an IB programme has individualized its program, providing unique selections from the IB electives and languages. Local school course listings will indicate those courses available at a given school.

## Blair/Poolesville Courses and IB Courses

A sampling of courses are listed at the end of each departmental listing in this bulletin and the Interdisciplinary and Research Courses section. To learn more, visit each school's website.

## Other High School Application Programs

There are other competitive programs offered to MCPS students, with a limited number of seats that require students to complete an

application and meet specific admission criteria. Programs include the Communications Art program at Blair HS, Global Ecology and the Humanities programs at Poolesville HS, the Leadership Training Institute at Kennedy HS, as well as PLTW Bioscience and PLTW Engineering Applications programs at Wheaton HS. Some programs accept applications countywide, while others accept applications from designated regions of the county. For more information about application programs offered in MCPS, visit <https://www.montgomeryschoolsmd.org/curriculum/specialprograms/high/>. Parents/guardians of current Grade 8 students are able to access and review all eligible high school application programs on the Synergy ParentVUE. The Grade 8 eligibility report is found in ParentVue and StudentVue. The High School Common App is found in ParentVue. All other applications are found on the High School Special Programs website. All applications require the student to have an MCPS Student ID to participate. Private school students may visit the special programs website to apply.

## Virtual Academy

MCPS offers a full-time virtual learning program for students in kindergarten to Grade 12, known as the Montgomery Virtual Academy. (<https://www2.montgomeryschoolsmd.org/schools/virtualacademy>)

Students interested in the program are required to apply for admission and must be approved to participate. The Virtual Academy is a centrally managed program and will partner with students' home schools to provide the academic and social emotional support students need to thrive in virtual instruction. The Virtual Academy provides a separate course catalog that can be found at <https://www2.montgomeryschoolsmd.org/schools/virtualacademy/news-index/new-page/>

## STUDENT ONLINE LEARNING/ ELEARNING

The MCPS Student eLearning program provides opportunities for students to take selected high school courses outside the traditional classroom setting. The program allows students access to online courses for acceleration, flexibility in scheduling, or to retake previously failed courses. Courses taught by MCPS teachers follow a blended learning model, requiring attendance at scheduled face-to-face meetings, in addition to online instruction. More information about student online learning/elearning is at [www.montgomeryschoolsmd.org/departments/onlinelearning/](http://www.montgomeryschoolsmd.org/departments/onlinelearning/).

Students can choose to take coursework for original credit or retake a course. Additional information about procedures for credit recovery can be found here: <https://www.montgomeryschoolsmd.org/departments/policy/pdf/ikara.pdf>.

### • Online MCPS Courses

MCPS offers three online courses: Comprehensive Health, Foundations of Engineering & Technology, and Foundations of Computer Science, which follow a blended model of online and face-to-face (f2f) learning. Each course satisfies both MCPS and Maryland state graduation requirements. Registration and cost information for these classes is available on the Student eLearning website.

### • Online AP Courses

Approved AP courses, offered by vendors outside of MCPS are delivered solely online. Courses have an associated fee. Registration information is available on the Student eLearning website. As with all courses offered by institutions other than MCPS, advance permission from the principal or designee is required for courses for which the student seeks high school credit. Additional information regarding eLearning is at [www.montgomeryschoolsmd.org/departments/onlinelearning/](http://www.montgomeryschoolsmd.org/departments/onlinelearning/).

### • Online Pathway to Graduation

The Online Pathway to Graduation (OPTG) is a year-long program, split into two sessions, that enables current and former MCPS high school students to meet the academic requirements for a Maryland high school diploma. Students who have completed at least one year of high school are eligible to participate in the program. Instruction in OPTG courses is of a blended nature, and students access required synchronous sessions and a comprehensive asynchronous curriculum digitally. Students will engage in course-specific meetings weekly, and will have access to a digital support and testing center each week. As participants successfully complete each course, credit is awarded, thus helping the participant progress toward earning a high school diploma. Also, participants are responsible for completing all Maryland and MCPS graduation requirements, including MCAP and SSL requirements. These courses are free for current MCPS students.

To learn about the Student eLearning program, see your counselor, contact the Student eLearning team, or visit the Student eLearning website, [www.montgomeryschoolsmd.org/departments/onlinelearning/](http://www.montgomeryschoolsmd.org/departments/onlinelearning/).

## ADDITIONAL LEARNING OPPORTUNITIES

### George B. Thomas, Sr. Learning Academies

Twelve MCPS schools host The George B. Thomas, Sr. Learning Academy, Inc. programs on Saturday mornings (Saturday School), providing enrichment, tutoring, and mentoring for students in Grades K–12. The George B. Thomas, Sr. Learning Academy, Inc. was established in 1986 by the Mu Nu Chapter of Omega Psi Phi Fraternity, as an outgrowth of the Saturday School Initiative of Blacks United for Excellence in Education. Saturday Schools are open to all students, regardless of their home school. High school sites include Blair, Clarksburg, Einstein, Gaithersburg, Magruder, Northwest, Paint Branch, Rockville, Springbrook, Watkins Mill, and Wheaton. There is also a location at Strathmore ES. For more information about Saturday School tutoring and the George B. Thomas, Sr. learning academies, contact your local school or visit [www.montgomeryschoolsmd.org/departments/gbtlg/](http://www.montgomeryschoolsmd.org/departments/gbtlg/), Or [www.saturdayschool.org](http://www.saturdayschool.org).

# Dual Enrollment: College Options

MCPS and Montgomery College (MC) have partnered to provide college credit options for college ready students via dual-enrollment opportunities. College ready students may take approved college courses at their high school (if offered), on the college campus, or online. All MCPS students may take college courses at no cost. All college courses taken and successfully completed will receive dual credit by counting toward college and high school credit. Approved higher level college credit courses will appear on the high school transcript as an advanced-level course, unless requested that it not be placed on the transcript during the enrollment process. There are special dual-enrollment programs that allow students the opportunity to earn an associate's degree from MC as well as a Maryland state diploma. More information about all dual enrollment programs is found below and at the following link: <https://www.montgomeryschoolsmd.org/curriculum/partnerships/dual-enrollment.aspx>.

## Early College

The Early College (EC) dual-enrollment program is offered at each MC campus, and provides qualified students with the opportunity to earn an associate's degree in a specific content area. Students apply to the EC program in the fall of 10th grade. Participating students will complete their 11th and 12th grade years of high school while simultaneously completing their first two years of college. The degree programs offered in the 2024-2025 school year are listed below by MC campus.

| EARLY COLLEGE PROGRAMS                            |  |
|---|--|

For more information about the Early College program, please visit [www.montgomeryschoolsmd.org/curriculum/partnerships/early-college.aspx](https://www.montgomeryschoolsmd.org/curriculum/partnerships/early-college.aspx).

## Middle College

In collaboration with MC, MCPS offers a Middle College program at three high schools. The Montgomery College Middle College (MC2) program at Northwest and Northwood high schools and the P-TECH Middle College program is offered at Clarksburg High School. Each Middle College dual enrollment program prepares students to earn a Maryland state high school diploma and college credits toward an associate's degree. The college credits are earned through a combination of courses, including Advanced Placement courses and corresponding test scores, CLEP examinations, and/or MC courses. Students are supported through a progressive transition from a traditional high school experience, to a college-like experience on the high school campus, and finally to full college coursework and experience on the college campus. During this transition, students are provided with dedicated college preparation, including preparation for the college placement and admission assessments. Students will matriculate through a pathway toward an associate's degree, beginning in Grade 9. Students apply to the Middle College programs in the fall of 8th grade.

| MIDDLE COLLEGE PROGRAMS   |                        |
|---|------------------------|
| Montgomery College Middle College (MC2) @ Northwest             | Northwest High School  |
| Montgomery College Middle College (MC2) @ Northwood             | Northwood High School  |
| Pathways In Network and Information Technology Program (P-TECH) | Clarksburg High School |

For more information about Middle College programs, please visit <https://www.montgomeryschoolsmd.org/curriculum/partnerships/middle-college.aspx>.

## Virtual Middle College Program

Virtual Middle College (VMC) is a Montgomery College (MC) and Montgomery County Public Schools (MCPS) joint academic initiative that provides qualified high school students with the opportunity to also enroll in an all-virtual college credit program at MC. As students progress through high school, they will take a combination of high school courses and online college courses that simultaneously count towards high school graduation requirements and an associate's degree. Students apply to the VMC program in the fall of 8th grade. Students from all MCPS high schools are eligible to participate. During the program, students are supported through a progressive transition from a traditional high school experience to online/virtual college courses.

To learn more about the program, visit: <https://www.montgomerycollege.edu/high-school-students/dual-enrollment/degree-and-pathway-programs/virtual-middle-college-program.html>.

For more information about Middle College programs, please visit <https://www.montgomeryschoolsmd.org/curriculum/partnerships/middle-college.aspx>.

## Jump Start to College Pathway

The Jump Start to College Pathway is an opportunity for high school students to earn college credits using dual enrollment opportunities available through our partnership with Montgomery College (MC) to meet high school graduation requirements and begin their journey toward success in college and beyond.

Students taking advantage of the Jump Start to College can take prescribed English, mathematics, science, social studies, and all other courses required for a Maryland high school diploma.

- Advance level College course grades that appear on the high school transcript will count for advanced credit when calculated into the weighted GPA, just like Advanced Placement (AP) and honors courses.
- Students who take select AP and International Baccalaureate courses and score high enough on the respective course examination, may be able to earn college credit for specific college courses.
- Each student's enrollment in any MC course is dependent on the student meeting all requirements, prerequisites, and assessment levels for the course as determined by MC.

For more information about Jump Start, please visit <https://www.montgomeryschoolsmd.org/curriculum/partnerships/jump-start.aspx>.

# DEPARTMENTAL COURSE OFFERINGS

## Computer Science, Engineering, and Technology Education

To prepare all students for demands of college, careers, and the rapidly changing 21st century workforce, MCPS provides a variety of engaging, hands-on offerings in computer science, engineering, and technology. In these courses, students apply mathematics, science, and technical knowledge while using computational and design thinking to innovate and solve relevant problems. The interdisciplinary nature of these technical subjects and a problem-based learning approach fosters creativity and critical thinking along with the communication and collaboration skills needed to thrive in the 21st century. MCPS utilizes external curriculum from national organizations such as Code.org, Apple, CISCO Networking Academy, Project Lead the Way (PLTW), and International Technology and Engineering Educators Association (ITEEA) to include experiences in coding, robotics, and engineering design processes.

Many MCPS computer science, engineering, and technology education courses, such as Foundations of Computer Science and Foundations of Engineering and Technology are designed to be accessible to students with no previous experience. For students who have taken technology-related courses in middle school or participated in related extracurricular experiences, consider beginning with AP Computer Science or a rigorous career readiness program such as an Information Technology program, Computer Science/Code.org, Mobile Applications and Software Development (Apple), or Project Lead the Way Engineering.

 **One credit in Technology Education is required for graduation.** Courses that satisfy that requirement are listed below.

|   |
|---|
| Foundations of Technology A/B               |
| Foundations of Computer Science A/B         |
| Foundations of Engineering & Technology A/B |
| Introduction to Engineering Design A/B      |
| AP Computer Science Principles, TE A/B      |
| IB Computer Science 1, TE A/B               |
| Advanced Design Applications                |
| Advanced Technological Applications         |
| Engineering Design A/B                      |

- Network Operations at Clarksburg High School, Seneca Valley High School and Thomas Edison High School, see more on page 66
- Mobile Applications and Software Development (Apple) at Walter Johnson High School, see more on page 65
- P-TECH—Pathways in Networking and Information Technology at Clarksburg High School, see more on page 66
- Math, Science, and Computer Science Program at Montgomery Blair (see more at <http://mbhs.edu/departments/magnet/courses.php>) and Poolesville (see more at [www2.montgomeryschoolsmd.org/schools/poolesvillehs/magnet/smcs/](http://www2.montgomeryschoolsmd.org/schools/poolesvillehs/magnet/smcs/)) high schools

# English Language Arts and Reading

 **Four credits in English are required for graduation:** English 9, English 10, English 11, and English 12. Courses that satisfy these requirements are described below. The goal of the English Language Arts program is to help students develop into literate, thoughtful communicators, capable of controlling language effectively as they negotiate an increasingly complex, information-rich world.

Aligned with the ELA Common Core State Standards, all English courses give students opportunities to refine specific skills and strategies in reading, writing, speaking, listening, and viewing to prepare them for the literacy demands of college and careers. Studying a variety of texts that are diverse in terms of cultural perspectives, time periods, and ideas about the human experience, students use evidence and reasoning to write increasingly complex arguments, analyses, and narratives. As they develop more nuanced perspectives, students appreciate literature and media as catalysts for inquiry and reflection, readying them to participate in a civil and democratic society.

| <b>LANGUAGE ARTS AND READING</b><br>Visit <a href="http://coursebulletin.montgomeryschoolsmd.org/CourseLists/Index/68">http://coursebulletin.montgomeryschoolsmd.org/CourseLists/Index/68</a> for course descriptions. |                    |                           |                 |                           |

# English Language Development (ELD) Program

The English Language Development (ELD) program provides high-quality English language development instruction aligned to grade-level content standards in English Language Arts. These courses focus on helping students develop the academic language proficiency needed to be able to learn content knowledge, skills, and processes and effectively use language to communicate proficiently in mainstream courses.

These courses are designed for the rapid mastery of the English language, focusing on reading, writing, speaking, and listening skills. ELD courses usually begin with extensive listening and speaking practice, building on auditory and oral skills, and support the development of reading and writing. These courses provide an explanation of grammatical structures of the English language, enabling students to progress from a basic understanding of English words and verb tenses to a more comprehensive grasp of various formal and informal styles to prepare them for grade-level mainstream English courses. ELD classes may also include an orientation to the customs and culture of the diverse population in the United States. English Learners (ELs) can only receive up to two English credits from ELD courses for up to four semesters (e.g., English 9 for EMLs I, English 9 for EMLs II, English 9 for EMLs III).

These courses provide opportunities for students to develop their competency in understanding spoken English, using vocabulary and language structures correctly in context, and engaging in extensive academic discourse. They receive instruction from grade-level curriculum resources and complex texts that represent various genres of narration, poetry, drama, and exposition and are taught to analyze text from cultural and historical perspectives. Valuing and promoting the home language and culture of EMLs fosters the understanding that literacy skills can be transferred across languages. It is critical that all educators in each school collaborate to support the academic success of EMLs.

EMLs will be scheduled into English classes designed to meet their level of academic language proficiency in appropriate ways including sheltered, co-taught, single and double periods. These courses will be aligned to the English Language Proficiency (ELP) levels 1.0-4.4 on the WIDA ACCESS test.

| English 10 for EMLs III   | ESL2067 A/B | 0.5                       | <b>Optional:</b> English Language Development Seminar for EMLs III ESL 2071 A/B   |
| *For WIDA Level 4 students can receive ELD instruction in a co-taught model or from a dually certified teacher in a mainstream English class. EMLs who are enrolled in Grade 11 and 12 must be enrolled in grade level English courses and can receive ELD instruction in one of the following ways; ELD instruction in an ELD seminar. ELD instruction from an ELD co-teacher in an English course or ELD instruction with an ELD teacher who is also teaching the English course. |             |                           |   |

# Fine Arts

The purpose of the fine arts curriculum is to open the minds of students to new and diverse worlds and cultures and enable them to creatively express themselves and value the multiple perspectives of others. Students are actively involved learners in the arts. Through their experiences in the arts, they become creative and critical problem solvers, independent and divergent thinkers, self-motivated workers, and innovators.

Students are led in an exploration of self, others, and the world in relation to the art forms. Students are given opportunities in the fine arts to apply learning in new ways by connecting and integrating content across disciplines. The fine arts—dance, media arts, music, theatre, and visual arts—provide each generation with knowledge of other cultures, past and present, and are among humanity’s greatest aesthetic and intellectual achievements. The curricula in fine arts courses are guided by four artistic processes identified in the new MCPS Frameworks: Creating, Performing/ Presenting, Responding, and Connecting; and are aligned to both the National Fine Arts and Maryland State Fine Arts standards.

The fine arts encourage students to take intellectual risks and to think critically and creatively when presented with opportunities to make choices and to solve complex, open-ended problems with the possibility of multiple solutions. Excellence in the fine arts is developed through continuous practice, craftsmanship, refinement, and reflection. The creative process encourages students to build resilience, perseverance, self-awareness, and a growth mindset. The fine arts prepare students to engage meaningfully with others in an ever-changing world. The skills learned through study and practice of the fine arts ensure students are equipped for future studies and careers.

 **One credit in Fine Arts is required for graduation:** Courses that satisfy the fine arts requirement are marked FA.

- Montgomery College Ensembles Partnership Program

# Health Education/Physical Education

## Health Education

 **\*One credit in Health Education is required for graduation. HPE2042 A/B satisfies the one credit health education requirement.**

**Health education** provides students with the knowledge and skills necessary to help them make healthful decisions—both now and in the future. Through the implementation of an effective, comprehensive health education instructional program, students will develop the life skills to enhance their potential for academic success and healthier, happier, and more productive lives. Knowledge of accurate health information is essential. Practicing health-related skills in real-life situations and developing healthful behaviors are the ultimate goals of the program. Health Education aligns with Be Well 365 by emphasizing lifelong positive health-related attitudes and behaviors that promote self-reliance and self-regulation for all students.

## Physical Education

 **One credit in Physical Education is required for graduation:** Courses that satisfy these requirements are described below.

High School Physical Education promotes life-long wellness and prepares students for a physically active lifestyle. The students will extend skills and knowledge developed in middle school, but with a more concentrated focus on planning and implementing lifetime physical activity goals. The instruction is centered on mastery of self-improvement, provides students with choices and deemphasizes competition and peer comparisons. Integration of technology in to the grade-level outcomes enhances the experience of students. As students move toward career readiness the physical education program prepares them by ensuring they can set personal physical fitness and physical activity goals. Physical Education aligns with Be Well 365 by emphasizing problem-solving, decision-making, goal -setting, and relationship building skills.

| Leadership Opportunities in Physical Education   | HPE 2003    |

## Concentrated Physical Education (CPE)

These semester-long courses include instruction in two-three week units focused on personal improvement in a game category. The outcomes of these courses promote refinement of life skills such as self-management, problem-solving, and communication. Each course offers opportunities for student growth in health-enhancing fitness activities, movement skills and concepts, and personal and social responsibility as they relate to the CPE course that is selected. As an extension of Foundations of Personal Fitness and Sport, students will apply the knowledge of components and principles of health and skill-related fitness when creating a personal fitness plan directly related to the CPE activity selected. CPE courses are all one semester, 0.5 credit courses, as listed in the course table below. Check with your school for which classes are available.

| CONCENTRATED PHYSICAL EDUCATION (CPE) COURSES          |             |
|--|-------------|
| Prerequisite: Foundation of Personal Fitness and Sport |             |
| COURSE TITLE   | COURSE CODE |
| CPE—Net Sports   | HPE2011     |
| CPE—Team Sports  | HPE2012     |
| CPE—Individual Sport                                   | HPE2009     |
| CPE—Lifetime Sport                                     | HPE2010     |

# Specialty Physical Education (SPE)

These semester-long courses offer in-depth instruction and planning for lifetime activity and fitness by applying and refining skills and concepts learned at the middle school level. Students will enjoy new lessons and application of skills in small-sided games and practice planning. Students will be able to apply the knowledge acquired in early years and be able to develop personal fitness plans through analysis of health-and skill-related fitness skills and concepts. Students will have opportunities to apply movement skills to advanced tactics and concepts of the chosen activity. Students will be given leadership roles as an opportunity for growth in personal and social responsibility. As an extension of Foundations of Personal Fitness and Sport, students will apply their knowledge of components and principles of health and skill-related fitness when creating a personal fitness plan. Students will deepen their understanding of personal fitness plans and goal setting as they apply directly to the SPE activity selected.

SPE courses are all one semester, 0.5 credit courses, as listed in the course table below. Check with your school for which classes are available.

| SPECIALTY PHYSICAL EDUCATION (SPE) COURSES             |             |

# Interdisciplinary and Research Courses

Interdisciplinary and Research Courses are academic courses that provide students with a combination of academic and practical skills. The emphasis is on research and thinking skills as a culminating course that allows students to apply and take the skills to transfer and apply in a range of situations.

## INTERNATIONAL BACCALAUREATE (IB) COURSES

Visit <http://coursebulletin.montgomeryschoolsmd.org/CourseLists/Index/92> for course descriptions

*Offered at: Bethesda-Chevy Chase HS, Albert Einstein HS, John F. Kennedy HS, Richard Montgomery HS, Rockville HS, Seneca Valley HS, Springbrook HS, Watkins Mill HS*

| COURSE TITLE                              | COURSE CODE  | COURSE CREDIT BY SEMESTER | COURSE INFO     | PREREQUISITES   |
|---|--------------|---------------------------|-----------------|---|
| IB Personal and Professional Skills 1 A/B | ITR 2002 A/B | 0.5                       | CM IB CDP (AL)  | <i>For IB Career Programme Candidate Students only</i>  |
| IB Personal and Professional Skills 2 A/B | ITR 2002 C/D | 0.5                       | CM IB (AL)      | <i>For IB Career Programme Candidate Students only</i>  |

| Guided Research A/B   | ENR2002 A/B | 0.5                       | CM (AL)     |

# Mathematics

In the 21st century, a deep understanding of mathematics, and the ability to apply that understanding, is more important than it has ever been. In Montgomery County Public Schools (MCPS), students develop a deep understanding of mathematics by building a strong foundation of number sense at the elementary level before moving to more advanced content. MCPS believes that the course options available to students will prepare them for success in college and careers. Through opportunities to accelerate course offerings in grades 6-12, students are able to reach Advanced Placement courses, such as AP Calculus, or AP Statistics, by twelfth grade, regardless of the grade level for which they successfully completed Algebra 1. New minimum qualifications for admission to University System of Maryland colleges and universities include completion of Algebra 2 or a significant mathematics course with advanced content during senior year. The College and Career Readiness Act of 2013 established the statutory language found in Maryland Education Code Annotated 7-205.1. This statute established that “Beginning with students entering the 9th grade class of school year 2014–2015, each student shall enroll in a mathematics course in each year of high school that the student attends, up to a maximum of 4 years of attendance, unless in the 5th or 6th year a mathematics course is needed to meet a graduation requirement.”

 **Four credits in mathematics, including 1 credit in algebra and 1 credit in geometry, are required for graduation.** MSDE further specifies that students must earn credits in mathematics courses, including one with instruction in algebra aligned with the MSHA for algebra or one or more credits in subsequent mathematics courses for which Algebra I is a prerequisite; and one with instruction in geometry, aligned with the content standards for geometry.

Students must enroll in a mathematics-based course for each year they attend high school, up to a maximum of four years of attendance, unless in the fifth or sixth year a mathematics course is needed to meet a graduation requirement. This is required by MSDE, as well as by many colleges and universities to which MCPS students may want to apply. Students are advised to consult with their academic advisors/counselors to ensure they meet all mathematics graduation requirements, and to examine carefully any additional admission requirements that may be in effect at a prospective postsecondary school of interest.

Additional information may be found at

- Math, Science, and Computer Science Program at Montgomery Blair and Poolesville high schools

# Science

 **3 Next Generation Science Standards (NGSS) credits, including life science aligned to the Life Science Maryland Integrated Science Assessment (LS MISA), physical science and one credit in Earth/space science or an NGSS course with the topics of Earth/space science integrated. Courses that satisfy those requirements are listed below.**

The goal of the science program is for all students to achieve full scientific literacy through standards-aligned, problem-based instruction. Students apply content knowledge through scientific and engineering practices to solve relevant, non-routine problems. For high school graduation, each student must earn a minimum of 3 credits in science courses that are aligned to the Maryland Science Standards (Next Generation Science Standards) and approved for graduation credit. In selecting courses to meet the 3-credit requirement, students should seek a broad array of learning experiences that include experiences in each of the major disciplines of science.

|  |  |  |

| <b>Life Science</b> <sup>1,2</sup>                   | <ul style="list-style-type: none"> <li>• Biology A and B (Honors, AP, or IB)</li> </ul>  |  |
| <b>Physical Science<sup>2</sup> or Integrated</b>    | <ul style="list-style-type: none"> <li>• Chemistry<sup>3</sup> A and B (Honors, AP, or IB)</li> <li>• Physics<sup>3</sup> A and B (Honors, AP, or IB)</li> </ul>   | <ul style="list-style-type: none"> <li>• Astronomy with Physics<sup>3</sup> A and B</li> <li>• IB Sports Exercise and Health Science</li> </ul>  |
| <b>Earth/Space Science<sup>2</sup> or Integrated</b> | <ul style="list-style-type: none"> <li>• Chemistry<sup>3</sup> A and B (Honors, AP, or IB)</li> <li>• Physics<sup>3</sup> A and B (Honors, AP, or IB)</li> <li>• Astronomy with Physics<sup>3</sup> A and B</li> <li>• AP Biology<sup>3</sup></li> </ul> | <ul style="list-style-type: none"> <li>• AP Environmental Science A and B</li> <li>• IB Environmental Systems A and B</li> <li>• Earth Systems and Sustainability<sup>4</sup> A and B</li> <li>• IB Biology</li> </ul> |

<sup>1</sup>Beginning with the 2024–2025 school year, the Maryland Comprehensive Assessment for science and government will count as 20 percent of first time 9th graders final grade in the respective high school level science and government courses (Biology and NSL Government).

<sup>2</sup>Students in high school science magnet programs may complete these graduation requirements in NGSS-aligned, graduation credit approved magnet courses not listed in this course bulletin. Consult your school course bulletin for details.

<sup>3</sup>A single course may only be applied to fulfill a single disciplinary category as described in COMAR. Chemistry, Physics and Astronomy with Physics integrate physical science and Earth/space science disciplinary core ideas; completion of the course may fulfill either the physical science OR Earth/space science credit, not both.

<sup>4</sup>Course Intended for Emergent Multilingual Learners, levels I/II

## ALTERNATIVE TO DISSECTION

Dissection is one of many instructional methods that may be used in laboratory science courses. Students/parents/guardians may request alternatives to dissection from the teacher. Alternatives may include such materials as videos, computer programs, films, models, transparencies, charts, diagrams, and textbook overlays.

Additional information may be found at

- Math, Science, and Computer Science Program at Montgomery Blair and Poolesville high schools

# Social Studies

 Three credits in social studies are required for graduation, including 1 U.S. History credit, 1 National, State, and local Government credit, and 1 World History credit. Courses that satisfy those requirements are listed below.

|  |  |
|--|--|
| <b>U.S. History</b>                          | <ul style="list-style-type: none"> <li>• United States History A and B</li> <li>• AP United States History A and B</li> </ul>  |
| <b>National, State, and Local Government</b> | <ul style="list-style-type: none"> <li>• National, State, and Local Government A and B</li> <li>• AP United States Government and Politics with NSL A and B</li> </ul> |
| <b>World History</b>                         | <ul style="list-style-type: none"> <li>• Modern World History A and B</li> <li>• AP World History</li> <li>• IB History 1 A and B</li> </ul>                           |

In Social Studies courses, students will be engaged in rigorous, relevant, and inclusive inquiry to develop their capacities to think critically, read closely, communicate clearly, and take action to improve their communities, country, and world.

Students will develop and use the following skills throughout their study of American History, National, State, and Local Government, Modern World History, and elective courses:

- analysis of multiple sources, including primary sources that demonstrate multiple perspectives of historically marginalized voices;
- application of concepts and knowledge of the past to problem-solving real-world issues of the present; and
- communication of social studies concepts and knowledge using a variety of formats, with emphasis on analytic and argumentative writing.

The required social studies courses include state requirements for environmental literacy and financial literacy instruction.

Additional information regarding the MCPS Social Studies program can be found at [www.montgomeryschoolsmd.org/curriculum/socialstudies](http://www.montgomeryschoolsmd.org/curriculum/socialstudies).

# World Languages

 **Two credits in the same world language, which may include American Sign Language, may be used to complete Option 1 of elective credits required for graduation.** If students select a world language to fulfill the Maryland diploma requirements, students must complete 2 credits in the same language.

The goal of the World Languages program is to prepare students to be linguistically and culturally competent in languages other than English. The ability to communicate in a culturally appropriate manner with speakers of other languages is the key to success in the increasingly diverse global community of the 21st century. As students develop proficiency in world languages and an understanding of the underlying values and beliefs of other cultures, they gain the skills that are essential to meaningful communication. World Languages courses must be taken in sequential order. The prerequisite for all courses, except 1A, is either successful completion of the preceding course or a local placement test.

## MARYLAND SEAL OF BILITERACY

High school graduates who can function in two or more languages are equipped with the knowledge and skills to participate successfully in college, careers, and a diverse 21st century society. The Maryland Seal of Biliteracy is a diploma endorsement, authorized by Maryland law, that recognizes a student's high level of proficiency in listening, speaking, reading, and writing in one or more languages other than English. To receive a Maryland Seal of Biliteracy, a student must do the following:

- Pass the Maryland High School Assessment in English 10; AND
- Demonstrate Intermediate high proficiency in listening, speaking, reading, and writing in a language other than English, as measured by assessments that are aligned to ACTFL (The American Council on the Teaching of Foreign Languages) proficiency guidelines.

For more information about the approved assessments, please visit the website <https://www.montgomeryschoolsmd.org/curriculum/office/seal-of-biliteracy.aspx>.

### WORLD LANGUAGES LEVEL 1

Visit <http://coursebulletin.montgomeryschoolsmd.org/CourseLists/Index/70> for course descriptions

Students begin to learn to communicate orally and in writing in a culturally appropriate manner about topics related to daily life. They interpret basic information when listening and reading. Vocabulary and basic grammatical structures are taught within the context of these familiar topics. Culture is embedded throughout the course.

| COURSE TITLE   | COURSE CODE | COURSE CREDIT BY SEMESTER | COURSE INFO |
|----------------|-------------|---------------------------|-------------|
| Arabic 1 A/B   | WLG2003 A/B | 0.5                       | NCAA        |
| Chinese 1 A/B  | WLG2021 A/B | 0.5                       | NCAA        |
| French 1 A/B   | WLG2041 A/B | 0.5                       | NCAA        |
| German 1 A/B   | WLG2061 A/B | 0.5                       | NCAA        |
| Italian 1 A/B  | WLG2071 A/B | 0.5                       | NCAA        |
| Japanese 1 A/B | WLG2081 A/B | 0.5                       | NCAA        |
| Spanish 1 A/B  | WLG2131 A/B | 0.5                       | NCAA        |

### WORLD LANGUAGES LEVEL 2

Students expand their ability to communicate orally and in writing in a culturally appropriate manner about topics related to daily life. They interpret information when listening and reading. Vocabulary and grammatical structures are taught within the context of these topics. Culture is embedded throughout the course.

**Prerequisite:** Level 1 of the language

| COURSE TITLE   | COURSE CODE | COURSE CREDIT BY SEMESTER | COURSE INFO  |
|----------------|-------------|---------------------------|--------------|
| Arabic 2 A/B   | WLG2012 A/B | 0.5                       | CM NCAA (AL) |
| Chinese 2 A/B  | WLG2022 A/B | 0.5                       | CM NCAA      |
| French 2 A/B   | WLG2042 A/B | 0.5                       | CM NCAA      |
| German 2 A/B   | WLG2062 A/B | 0.5                       | CM NCAA      |
| Italian 2 A/B  | WLG2072 A/B | 0.5                       | CM NCAA      |
| Japanese 2 A/B | WLG2082 A/B | 0.5                       | CM NCAA      |
| Spanish 2 A/B  | WLG2132 A/B | 0.5                       | CM NCAA      |

### WORLD LANGUAGES LEVEL 3

Students continue to expand their ability to communicate orally and in writing in a culturally appropriate manner about a variety of familiar topics. They interpret detailed information when listening and reading. Vocabulary and more complex grammatical structures are taught within the context of these topics. Culture is embedded throughout the course.

**Prerequisite:** *Level 2 of the language*

| COURSE TITLE          | COURSE CODE | COURSE CREDIT BY SEMESTER | COURSE INFO  |
|-----------------------|-------------|---------------------------|--------------|
| Arabic 3 A/B          | WLG2013 A/B | 0.5                       | CM NCAA (AL) |
| Chinese 3 A/B         | WLG2023 A/B | 0.5                       | CM NCAA      |
| Honors Chinese 3 A/B  | WLG2028 A/B | 0.5                       | CM NCAA (H)  |
| French 3 A/B          | WLG2043 A/B | 0.5                       | CM NCAA      |
| Honors French 3 A/B   | WLG2048 A/B | 0.5                       | CM NCAA (H)  |
| German 3 A/B          | WLG2063 A/B | 0.5                       | CM NCAA      |
| Honors German 3 A/B   | WLG2067 A/B | 0.5                       | CM NCAA (H)  |
| Italian 3 A/B         | WLG2073 A/B | 0.5                       | CM NCAA      |
| Honors Italian 3 A/B  | WLG2076 A/B | 0.5                       | CM NCAA (H)  |
| Japanese 3 A/B        | WLG2083 A/B | 0.5                       | CM NCAA      |
| Honors Japanese 3 A/B | WLG2088 A/B | 0.5                       | CM NCAA (H)  |
| Spanish 3 A/B         | WLG2133 A/B | 0.5                       | CM NCAA      |
| Honors Spanish 3 A/B  | WLG2138 A/B | 0.5                       | CM NCAA (H)  |

### WORLD LANGUAGES LEVEL 4

Students communicate orally and in writing with increased proficiency in a culturally appropriate manner about a range of topics. They interpret detailed and extended information when listening and reading. Vocabulary and complex linguistic structures are taught within the context of these topics. Culture is embedded throughout the course.

**Prerequisite:** *Level 3 of the language*

| COURSE TITLE          | COURSE CODE | COURSE CREDIT BY SEMESTER | COURSE INFO  |
|-----------------------|-------------|---------------------------|--------------|
| Honors Chinese 4 A/B  | WLG2029 A/B | 0.5                       | CM NCAA (H)  |
| French 4 A/B          | WLG2044 A/B | 0.5                       | CM NCAA (AL) |
| Honors French 4 A/B   | WLG2049 A/B | 0.5                       | CM NCAA (H)  |
| German 4 A/B          | WLG2064 A/B | 0.5                       | CM NCAA (AL) |
| Honors German 4 A/B   | WLG2068 A/B | 0.5                       | CM NCAA (H)  |
| Italian 4 A/B         | WLG2074 A/B | 0.5                       | CM NCAA (AL) |
| Honors Italian 4 A/B  | WLG2077 A/B | 0.5                       | CM NCAA (H)  |
| Japanese 4 A/B        | WLG2084 A/B | 0.5                       | CM NCAA (AL) |
| Honors Japanese 4 A/B | WLG2089 A/B | 0.5                       | CM NCAA (H)  |
| Spanish 4 A/B         | WLG2134 A/B | 0.5                       | CM NCAA (AL) |
| Honors Spanish 4 A/B  | WLG2139 A/B | 0.5                       | CM NCAA (H)  |

## WORLD LANGUAGES LEVEL 5

Students continue to increase their proficiency in communicating orally and in writing in a culturally appropriate manner about a broad range of topics. They interpret complex information when listening and reading. Vocabulary and a variety of complex linguistic structures are taught within the context of these topics. Culture is embedded throughout the course.

**Prerequisite:** *Level 4 of the language*

| COURSE TITLE   | COURSE CODE | COURSE CREDIT BY SEMESTER | COURSE INFO  |
|----------------|-------------|---------------------------|--------------|
| Chinese 5 A/B  | WLG2025 A/B | 0.5                       | CM NCAA (AL) |
| French 5 A/B   | WLG2045 A/B | 0.5                       | CM NCAA (AL) |
| German 5 A/B   | WLG2065 A/B | 0.5                       | CM NCAA (AL) |
| Italian 5 A/B  | WLG2075 A/B | 0.5                       | CM NCAA (AL) |
| Japanese 5 A/B | WLG2085 A/B | 0.5                       | CM NCAA (AL) |
| Spanish 5 A/B  | WLG2135 A/B | 0.5                       | CM NCAA (AL) |

## WORLD LANGUAGES LEVEL 6

Students communicate at a high level of proficiency orally and in writing in a culturally appropriate manner about a broad range of topics. They interpret complex information when listening and reading. Vocabulary and a variety of complex linguistic structures are taught within the context of these topics. Culture is embedded throughout the course.

**Prerequisite:** *Level 5 of the language*

| COURSE TITLE   | COURSE CODE | COURSE CREDIT BY SEMESTER | COURSE INFO  |
|----------------|-------------|---------------------------|--------------|
| Chinese 6 A/B  | WLG2026 A/B | 0.5                       | CM NCAA (AL) |
| French 6 A/B   | WLG2046 A/B | 0.5                       | CM NCAA (AL) |
| German 6 A/B   | WLG2066 A/B | 0.5                       | CM NCAA (AL) |
| Japanese 6 A/B | WLG2086 A/B | 0.5                       | CM NCAA (AL) |
| Spanish 6 A/B  | WLG2136 A/B | 0.5                       | CM NCAA (AL) |

## AP WORLD LANGUAGES

These courses are for world languages students interested in college-level work. The courses link language and culture while developing students' proficiency in speaking, listening, reading, and writing. Students read, discuss, and react to a variety of texts orally and in writing in preparation for the AP examination.

## SPANISH FOR SPANISH SPEAKERS

Spanish for Spanish Speakers provides language instruction for students with proficiency in Spanish, either because it is their first language or because it is spoken extensively in the home. Each course integrates history, culture, language, and connections related to the Spanish-speaking world.

Spanish for Spanish Speakers 3 A/B is an advanced-level course designed to prepare students for AP Spanish Language or AP Spanish Literature exam.

| COURSE TITLE                       | COURSE CODE | COURSE CREDIT BY SEMESTER | COURSE INFO  |
|------------------------------------|-------------|---------------------------|--------------|
| Spanish Literacy 1 A/B             | WLG2150 A/B | 0.5                       |              |

| Spanish for Spanish Speakers 3 A/B | WLG2143 A/B | 0.5                       | CM NCAA (AL) |

## LATIN

As students progress through the sequence of Latin courses, they build a foundation of Latin vocabulary and grammar. They study aspects of Roman life and history and the works of major authors such as Cicero, Pliny, Horace, Ovid, Tibullus, or Plautus. In preparation for the AP Latin exam, students translate the Aeneid from Latin into English, analyzing Vergil's style as well as studying the cultural, social, and political context of the literature.

| COURSE TITLE       | COURSE CODE | COURSE CREDIT BY SEMESTER | COURSE INFO     |
|--------------------|-------------|---------------------------|-----------------|
| Latin 1 A/B        | WLG2101 A/B | 0.5                       | NCAA            |
| Latin 2 A/B        | WLG2102 A/B | 0.5                       | NCAA            |

| AP Latin A/B       | WLG2018 A/B | 0.5                       | CM NCAA AP (AL) |

## AMERICAN SIGN LANGUAGE

Students use American Sign Language to communicate about daily life with basic vocabulary and simple grammatical structures. They explore the cultural and linguistic heritage of the Deaf community and its influence.

| COURSE TITLE                 | COURSE CODE | COURSE CREDIT BY SEMESTER | COURSE INFO  |
|------------------------------|-------------|---------------------------|--------------|
| American Sign Language 1 A/B | WLG2001 A/B | 0.5                       | NCAA         |
| American Sign Language 2 A/B | WLG2002 A/B | 0.5                       | NCAA         |
| American Sign Language 3 A/B | WLG2003 A/B | 0.5                       | CM NCAA (AL) |

# International Baccalaureate World Languages Courses

**Level 2**—Students receive intensive training in the basic foundations of the language to develop proficiency in both oral and written expression at the appropriate level. Students master the MCPS Level 2 modern foreign language curriculum and study the literature, culture, and civilization of countries where the target language is spoken.

**Level 3**—Students develop higher-level language skills and vocabulary needed for increased proficiency in oral and written expression, listening, and reading comprehension. Students master the MCPS Level 3 modern foreign language curriculum; are introduced to literary analysis; and study the literature, culture, history, and current events in countries where the target language is spoken.

**Level 4**—IB Level 4 foreign language courses comprise the first year of a two-year sequence to prepare students for the standard-level IB foreign language exam. Students strengthen their knowledge and fluency in oral and written language and broaden their understanding of culture and civilization. Composition objectives for specific writing assignments are correlated with the literature, culture, and civilization topics.

**Level 5**—Students complete their preparation for the standard-level IB foreign language and the Advanced Placement language exams. Emphasis is placed on reading comprehension, interpretation, analysis, and oral proficiency. Students analyze a wide variety of spoken and written materials and life and civilization in pertinent countries.

**Level 6**—IB Level 6 foreign language courses emphasize the composition of well-constructed extended essays and oral proficiency at the near-native level. Instruction emphasizes critical analysis of the structural and stylistic characteristics of works, increased oral and written proficiency, and continued in-depth study of the life and civilization of pertinent countries. Students are prepared for the higher-level IB exam.

**Level 7**—Students continue to develop their reading and writing skills in preparation for the IB higher-level language examination.

# Montgomery County Public Schools

*Strong academics and real-world professional experiences so students can design their own future and stand out among the best.*

## WHAT ARE CAREER READINESS PROGRAMS?

Career readiness is an educational approach combining strong academics with technical skills and real-world professional experiences that gives students a competitive advantage for college and lifelong career success.

### CAREER READINESS PROGRAMS COMBINE

COLLEGE CREDIT

INDUSTRY RECOGNIZED  
CREDENTIALS

TWO-YEAR  
ASSOCIATE'S DEGREE

INTERNSHIPS AND  
APPRENTICESHIPS

Each MCPS high school offers rigorous programs where students get a head start on reaching their career and college goals.

## WHY CAREER READINESS?

MCPS recognizes that as the economy, the cost of college, and the labor market continue to change, a more comprehensive approach in high school is needed to ensure every graduate leaves prepared for their next step.

### CAREER READINESS PROGRAMS HELP STUDENTS DESIGN THEIR OWN FUTURE BY

- Offering a combination of both college-level and career readiness courses at no cost.
- Providing relevant work based learning experiences (e.g. internships, apprenticeships) where students learn skills that make them more marketable to employers

### STUDENTS WILL LEAVE HIGH SCHOOL WITH MORE OPTIONS AND BETTER EQUIPPED TO NAVIGATE CHANGES THAT INCLUDE

- Growth in IT, engineering, business management, health care, and other high-demand industries
- Higher college costs and more student debt
- More career opportunities for skilled technical workers with some level of postsecondary education

## CAREER CLUSTERS

MCPS organizes career programming into 12 Career and Technical Education (CTE) Clusters. These career clusters will help direct you toward focused programs of study with high school plans to help you choose courses that align with your future goals.

- Arts, Media, and Communications
- Business Management and Finance
- Career Experiences and Internships
- Construction and Development
- Consumer Services, Hospitality and Tourism
- Education Training and Child Studies
- Environmental, Agricultural and Natural Resources
- Health and Biosciences
- Information Technology and Computer Science
- Law, Government, Public Safety, and Administration
- Manufacturing, Engineering and Technology
- Transportation, Distribution, and Logistics

***Montgomeryschoolsmd.org/Career-Readiness***

## CAREER READINESS PROGRAMS OF STUDY (POS)

The Career Readiness Programs of Study (POS) are designed to prepare high school students for the 21st century global economy and its rapidly changing workforce needs. All programs are aligned to academic and technical skill standards to ensure students are adequately prepared for college and careers. Many POSs provide opportunities for students to earn industry recognized credentials, college credit, and work-based learning experience through internships or apprenticeships. MCPS high schools offer an extensive array of POSs for students. These state-approved programs satisfy the career development graduation requirement and are designed to help students acquire the specialized knowledge, skills, attitudes, and work habits required for postsecondary education and employment. Schools that offer specific POSs are included in the POS section. Schools listed are approved to offer a full POS; however, not all schools will offer all courses every year. For additional information about Career Readiness visit [www.montgomeryschoolsmd.org/career-readiness/](http://www.montgomeryschoolsmd.org/career-readiness/)

**Completion of a state-approved program of study (POS) may be used to complete Option 2 of elective credits required for graduation.**

### COLLEGE CREDIT AVAILABLE AT MC FOR MCPS STUDENTS WHO COMPLETE CAREER READINESS PROGRAMS OF STUDY

MCPS graduates who successfully complete select Career Readiness programs of study may earn free college credit after receiving grades of B or higher in courses articulated with Montgomery College (MC). Earned credits may be used toward an associate's degree at MC. For more information regarding the MC articulated credit and related programs of study, students should contact their high school counselor and visit <https://cms.montgomerycollege.edu/CTE/>. MC offers financial aid to help pay fees for qualifying students. Call 301-279-5000 at MC for college-related information, including information from the Financial Aid Office and an application packet. Starting in 2024, students may also earn proficiency credit (PC) in select POS via an assessment or portfolio review offered by MC. Through the PC process, the grade earned on the assessment or after the portfolio review may be placed on the MC college transcript and may transfer to four year institutions.

Students are advised that there are additional options for earning college credit while an MCPS student. For more information about these opportunities, visit [www.montgomeryschoolsmd.org/curriculum/partnerships/dual-enrollment.aspx](http://www.montgomeryschoolsmd.org/curriculum/partnerships/dual-enrollment.aspx).

## PROGRAMS OF STUDY IN ARTS, MEDIA, AND COMMUNICATIONS

### • AUDIOVISUAL COMMUNICATIONS AND BROADCAST TECHNOLOGIES POS

#### BROADCAST MEDIA POS VIDEO PRODUCTION (4 CREDITS)

Offered at: James Hubert Blake HS, Gaithersburg HS, John F. Kennedy HS, Northwood HS, Paint Branch HS, Quince Orchard HS, Winston Churchill HS

The Audiovisual Communications and Broadcast Technologies program prepares individuals to apply technical knowledge and skills to the production of radio, television, and digital media program, and related operations. The program includes instruction in sound, lighting, and camera operation and maintenance; power and feed control; studio operations; production preparation; broadcast engineering; related computer applications; and specialized applications such as news, entertainment, live talk, sports, commercials, and taping. The program comprises a foundation course, two courses focused on a specific specialization in audiovisual communications production, and a final culminating course.

## • INTERACTIVE MEDIA PRODUCTION POS

### INTERACTIVE MEDIA PRODUCTION POS (4 CREDITS)

*Offered at: James Hubert Blake HS, Gaithersburg HS, Quince Orchard HS*

Interactive Media Production (IMP) provides students with a strong foundation in arts and communication, with particular emphasis on design, graphic and media communications, interactive technologies, and project development. Throughout the program, students produce an assortment of three-dimensional models, two-dimensional animations, layered images, streaming media, and web pages. They also will use a variety of software applications to design “apps” and develop video games.

#### AVAILABLE CERTIFICATIONS/POSTSECONDARY CREDENTIALS

- Adobe Creative Suite
  - » Dreamweaver
  - » Illustrator
  - » InDesign
  - » Photoshop
  - » Premiere Pro
- Community College of Baltimore County (CCBC)—12 credits

Additional program information can be found at [www.montgomeryschoolsmd.org/career-readiness/plans/television.aspx](http://www.montgomeryschoolsmd.org/career-readiness/plans/television.aspx).

## • GRAPHIC COMMUNICATIONS POS

### GRAPHIC COMMUNICATIONS (6 CREDITS)

*Offered at: Thomas Edison HS of Technology*

Students learn a variety of graphic design, imaging, and print-related skills to provide a foundation for all aspects of the graphic communications industry. Students use the latest in digital imagery, design, and production with computer technology, including advanced photo editing, presentation software, illustration and drawing software, digital video hardware and editing software, and multimedia and web design. Layout, design, and composition activities as well as offset lithographic production and binding techniques, are included in the program.

Students learn processes such as 35 mm continuous tone photography and screen printing of cards, posters, and T-shirts.

# PROGRAMS OF STUDY IN BUSINESS MANAGEMENT AND FINANCE

## NAF ACADEMY OF FINANCE (4 CREDITS)

*Offered at: Albert Einstein HS, Paint Branch HS, Col. Zadok Magruder HS, Northwest HS*

The NAF Academy of Finance is a national network of education, business, and community leaders who work together to ensure high school students are college, career, and future ready. In this program, students receive intensive coursework in economics, finance, and business principles.

For more information, visit [www.naf.org](http://www.naf.org).

## • PROGRAMS OF STUDY IN BUSINESS, MANAGEMENT, AND FINANCE

### ACCOUNTING AND FINANCE (3–4 CREDITS)

*Offered at: Montgomery Blair HS, Gaithersburg HS, Col. Zadok Magruder HS, Northwest HS*

The Business, Management, and Finance programs of study focus on three pathways. Each program pathway includes rigorous academics, broad industry knowledge and skills, and exposure to careers within the field.

Students in all pathways will be required to take two foundation courses—Principles of Business Management and Entrepreneurship and Principles of Accounting and Finance. All students will learn effective decision-making techniques in financial management, business communication, problem solving, teamwork, and networking skills. Human resource topics such as diversity in the workplace, ethics, employer/employee rights, discrimination, accountability, time management, and setting priorities will be covered.

Upon completion of the two foundation courses, students are required to complete two additional courses in their selected program of study. These include Business Management, Accounting, Marketing, or Business Administrative Services. The final course in the Business Management, Accounting, and Marketing pathways includes options for a capstone course, dual enrollment, internship, or the opportunity to take Advanced Placement Economics.

## CAREER EXPERIENCES AND INTERNSHIPS

### • APPRENTICESHIP MARYLAND POS

| APPRENTICESHIP MARYLAND (3.5 CREDITS)   |                              |   |                           |             |
|---|------------------------------|---|---------------------------|-------------|
| The Apprenticeship Maryland Program is based on a partnership among eligible employers, MCPS, students and parents. The program is for students ages 16 and up, and is designed to lead to sustainable employment and further education, based on selected career pathways. The program consists of at least 1 credit of related classroom instruction and a workplace component of at least 450 hours. The workplace component is a paid (at least minimum wage) mentored, on-the-job, work experience with a written student rating/work-based learning plan. |                              |   |                           |             |

### • CAREER READINESS EDUCATION ACADEMY (CREA)

The Career Readiness Education Academy (CREA) is an academic and career readiness program for older Emergent Multilingual Learners (EMLs) in MCPS. Students in CREA have the opportunity to prepare for the GED exam and earn industry certifications in their chosen field of study. Students are referred to CREA if they are at least 18 years old and unlikely to meet graduation requirements before turning 21 and/or if they are interested in pursuing an alternative pathway to a high school diploma via GED preparation. CREA offers both full-day and evening programs at Thomas Edison High School of Technology and Seneca Valley High School. The evening option is offered Monday through Friday from 6:00–9:00 p.m. and the day programs occur during regular school hours. In both programs, students study a career pathway and participate in an ELD class, math class, and GED preparation class. Students enroll at their home school, but attend all classes with the CREA program.

These courses are open only to EMLs enrolled in the CREA program and admission must be determined by the CREA program specialist. The courses are offered at Seneca Valley High School and Thomas Edison High School of Technology. Additional information is at [www.montgomeryschoolsmd.org/curriculum/foundations](http://www.montgomeryschoolsmd.org/curriculum/foundations).

## • COLLEGE/CAREER RESEARCH AND DEVELOPMENT

### COLLEGE/CAREER RESEARCH AND DEVELOPMENT (3 CREDITS)

College/Career Research and Development is a two-year program that prepares students for sustainable employment and further education, based on their career interests. The program consists of: 1 credit classroom instruction in College/Career Research and Development, 1 credit classroom instruction in Career Seminar (to be concurrent with Site-Based Work Experience) and 1 credit for Site-Based Work Experience. Site-Based Work Experience requires the supervisor/manager at the employer to identify learning goals at the beginning of each marking period and provide a written evaluation at the end of each marking period.

Hours required per credit: .5 credit = 67.5 hours, 1 credit = 135 hours.

| REQUIRED COURSEWORK IN THIS SEQUENCE |             |   | COURSE CREDIT BY SEMESTER | COURSE INFO |
|--------------------------------------|-------------|---|---------------------------|-------------|
| 1                                    | NSS2035 A/B | College/Career Research and Development | 0.5                       |             |

Additional program information can be found at [www.montgomeryschoolsmd.org/career-readiness/plans/college.aspx](http://www.montgomeryschoolsmd.org/career-readiness/plans/college.aspx)

## • INTERNSHIPS

### INTERNSHIP REQUIREMENTS (1-3 CREDITS)

Internship is an additional programmatic elective that provides students with experiential learning related to their future education and chosen career field. Each internship requires an identified sponsor, verification of hours and sponsor evaluations. Note: If a student needs an internship to complete a CTE Program of Study (POS), the course on their schedule should be the course code related to that specific CTE POS (the course code can be repeated to match the number of internship hours the student is working).

Students may be required by the sponsoring organization to provide appropriate documentation. This may include a social security number and/or proof of citizenship.

Hours required per semester: Single-period : .5 credit = 75 hours, Double-period: 1.0 credit = 150 hours and Triple-period: 1.5credits = 225 hours

# PROGRAMS OF STUDY IN CONSTRUCTION AND DEVELOPMENT

## • CONSTRUCTION EXPLORATION

### CONSTRUCTION AND DEVELOPMENT - CONSTRUCTION EXPLORATION (4 CREDITS)

*Offered at: : ONLY at Thomas Edison*

This course is designed for students new to the construction industry. Students experience hand-on activities related to carpentry; electricity; heating, ventilation, and air conditioning (HVAC); masonry; and plumbing in one semester. Standards covered in the core curriculum include basic safety; introduction to construction math; introduction to hand tools; introduction to power tools; introduction to construction drawings; basic rigging; basic communication skills; basic employability skills; and introduction to materials handling.

## • CARPENTRY

### CONSTRUCTION AND DEVELOPMENT—CARPENTRY (4 CREDITS)

Offered at: : ONLY at Thomas Edison

The Carpentry program provides students with opportunities to learn about the home-building industry. Participants in this program master a variety of construction skills. Students apply their knowledge and skills by participating in the student-built house project. Students who complete this program are eligible to receive credit at Montgomery College in the Construction Technology program, as well as industry-recognized credentials through the National Center for Construction Education and Research.

## • CONSTRUCTION ELECTRICITY

### CONSTRUCTION AND DEVELOPMENT—ELECTRICITY (4 CREDITS)

*Offered at: : ONLY at Thomas Edison*

The Construction Electricity program provides students with opportunities to learn about the residential and commercial building industry. Participants master a variety of electrical skills and develop workplace competencies through authentic experiences. Students apply their knowledge and skills to the student-built house project. Students who complete this program are eligible to receive credit at Montgomery College in the Construction Technology program, as well as industry-recognized credentials through the National Center for Construction Education and Research.

## • PRINCIPLES OF ARCHITECTURE AND CAD TECHNOLOGY

### CONSTRUCTION AND DEVELOPMENT—PRINCIPLES OF ARCHITECTURE & CAD TECHNOLOGY (4 CREDITS)

*Offered at: : ONLY at Thomas Edison*

The Principles of Architecture and Computer-Assisted Drafting (CAD) Technology is a two-year program that provides an opportunity for students to complete a design pathway. Designing and engineering of physical structures from original concept to complete architectural and engineering plans that include using AutoCAD software are the major elements of the program. Upon graduation, students will be capable of furthering their education in a number of careers in the construction industry that are related to developing, designing, constructing, and maintaining the built environment. Students who complete this program are eligible to receive credit at Montgomery College in the Architectural Technology program.

## • HEATING AND AIR CONDITIONING

### CONSTRUCTION AND DEVELOPMENT—HEATING AND AIR CONDITIONING (4 CREDITS)

*Offered at: : ONLY at Thomas Edison*

The Heating and Air Conditioning program prepares students for the challenges and demands of an exciting and technical career. Students learn a variety of basic and advanced heating, ventilating, and air conditioning (HVAC) principles in a combination of classroom and work-site experiences. An integral part of the instructional program is participation in the student-built house project. Students completing this program are eligible to receive credit at Montgomery College in the Construction Technology program, as well as industry—recognized credentials through the National Center for Construction Education and Research.

## • MASONRY

### CONSTRUCTION AND DEVELOPMENT—MASONRY (4 CREDITS)

*Offered at: : ONLY at Thomas Edison*

The Masonry program provides opportunities for students to learn a variety of skills related to brick and block construction. Students gain practical work experience by participating in the student-built house project. By completing this program, students are eligible to receive credit at Montgomery College in the Construction Technology program, as well as industry-recognized credentials through the National Center for Construction Education and Research. An approved apprenticeship program, and/or a career as a brick mason also are options for students who complete this program.

## • PLUMBING

### CONSTRUCTION AND DEVELOPMENT—PLUMBING (4 CREDITS)

*Offered at: : ONLY at Thomas Edison*

The plumbing program provides students with opportunities to learn the installation, maintenance, and repair of many different types of pipe systems. Plumbers install and repair the water, waste disposal, drainage, and gas systems in homes and commercial and industrial buildings. Students apply their knowledge and skills in the construction of a student-built house project. By completing this program, students are eligible to receive credit at Montgomery College in the Construction Technology program, as well as industry-recognized credentials through the National Center for Construction Education and Research.

## • CONSTRUCTION DESIGN AND MANAGEMENT

### CONSTRUCTION AND DEVELOPMENT—CONSTRUCTION DESIGN AND MANAGEMENT (4 CREDITS)

*Offered at: : ONLY at Seneca Valley*

A four-course, project-based CTE Program of Study. Project-based learning (PBL) is a dynamic classroom teaching method in which students actively explore real-world problems and challenges to acquire a deeper knowledge about the subject matter. Students gain knowledge and skills by completing and revising projects that address complex questions, problems, or challenges. The instructor doubles as a facilitator, working with students to frame worthwhile questions, structuring meaningful tasks, coaching both knowledge development and social skills, and carefully assessing what students have learned from the experience. PBL also creates opportunities for groups of students to collectively gather information and think critically, thus developing essential collaboration skills required in the workplace.

Students will develop an understanding of the built world through the design and construction process. Each course uses the project-based learning approach to advance students' understanding of the design-build-maintain process. Advanced architectural drafting and design skills are developed through lab-based instruction using Autodesk software tools (AutoCAD and Revit Architecture). Throughout the program, students will develop a portfolio to demonstrate knowledge of each phase of the design and construction management process. Students will also have the opportunity to earn industry certification in AutoCAD and/or Revit.

## • PROFESSIONAL RESTAURANT MANAGEMENT

### PROFESSIONAL RESTAURANT MANAGEMENT (4 CREDITS)

The Professional Restaurant Management program provides students with the opportunity to explore many career opportunities available in the food-service industry. Students develop skills for employment based on industry standards. Students learn safety and sanitation principles, professional food-handling techniques, and quantity preparation through the use of commercial equipment and systems technology. Nutrition, menu planning, food cost control, and workplace skills are emphasized throughout the program. The American Culinary Federation (ACF) has certified this program and ACF outcomes have been infused into the curriculum, providing industry-based experiences. Students have opportunities to take the ServSafe exam and the National Occupational Competency Testing Institute examinations for certification. Course fees may apply

# PROGRAMS OF STUDY IN HEALTH AND BIOSCIENCES

## • HEALTHCARE PROFESSIONS

### HEALTHCARE PROFESSIONS CERTIFIED NURSING ASSISTANT OPTION (4 CREDITS)

*Offered at: Thomas A. Edison HS of Technology, John F. Kennedy HS, Paint Branch HS, Sherwood HS, Watkins Mill HS*

The Academy of Health Professions uses project and problem-based learning, clinical experiences, and classroom and lab instruction to teach students about the high-demand field of health care. Students are introduced to basic health-care knowledge and skills through two foundation courses: Foundation of Medicine and Health Science and Structures and Functions of the Human Body. Opportunities for students to apply foundational course knowledge to real-life health-care situations are offered through specialized course options such as Fundamentals of Pharmacy, Physical Rehabilitation Science, and Certified Nursing Assistant with Clinical Applications.

Students will have the opportunity to earn state and/or nationally recognized certifications and/ or college credit through articulation agreements with local colleges. Students may choose from several options for program completion. These may include enrollment in a postsecondary institution or internship. Students are strongly encouraged to complete four years of science. At a minimum, students should take biology and chemistry while enrolled in the program.

## BIOMEDICAL SCIENCES/HEALTH PROFESSIONS (BIOMED/HP) PROGRAM (4 CREDITS)

Offered at: : Thomas Edison High School of Technology, Wheaton HS

The Biomedical Sciences/Health Professions (Biomed/HP) Program combines the foundational curriculum of Project Lead the Way Inc., Biomedical Sciences with the specialized pathway and capstone options of the Academy of Health Professions program. This program uses project and problem-based learning, clinical and internship experiences, and classroom and lab instruction to teach students about the field of healthcare. Students are introduced to healthcare knowledge and skills through two foundation courses: Principles of Biomedical Science and Human Body Systems.

Students will have the opportunity to earn state and/or nationally recognized certifications and/or college credit through articulation agreements with local colleges. Students may choose from several options for program completion. These may include enrollment in a postsecondary institution or internship. Students are strongly encouraged to complete four years of science. At a minimum, students should take biology and chemistry while enrolled in the program.

## • PROJECT LEAD THE WAY (PLTW), BIOMEDICAL SCIENCES

### PLTW BIOMEDICAL SCIENCES (4 CREDITS)

*Offered at: Gaithersburg HS, Rockville HS, Wheaton HS*

Biomedical sciences explores the wide variety of healthcare and science career options, and equips students with the knowledge and skills necessary to succeed in any post-secondary biomedical sciences or pre-professional programs.

| REQUIRED COURSEWORK |             |                                   | COURSE CREDIT BY SEMESTER | COURSE INFO |
|---------------------|-------------|-----------------------------------|---------------------------|-------------|
| 1                   | BHP2007 A/B | Principles of Biomedical Sciences | 0.5                       |             |
| 2                   | BHP2008 A/B | Human Body Systems                | 0.5                       | (AL)        |
| 3                   | BHP2016 A/B | Medical Interventions             | 0.5                       | (AL)        |
| CAPSTONE COURSE     |             |                                   |                           |             |
| 4                   | BHP2000 A/B | Biomedical Innovations            | 0.5                       | (AL)        |

#### AVAILABLE CERTIFICATIONS/POSTSECONDARY CREDENTIALS

- Students may earn transcribed credit from Stevenson University upon completion of the program.

## • BIOTECHNOLOGY

### BIOTECHNOLOGY (3 CREDITS)

*Offered at: Northwest HS*

Biotechnology provides an intensive hands-on laboratory program for students utilizing the latest lab equipment and computer technology to investigate the intricacies of protein/DNA science. Biotechnology is the application of concepts from biochemistry, genetics, and molecular biology.

| REQUIRED COURSEWORK IN THIS SEQUENCE |             |                                | COURSE CREDIT BY SEMESTER | COURSE INFO |
|--------------------------------------|-------------|--------------------------------|---------------------------|-------------|

#### AVAILABLE CERTIFICATIONS/POSTSECONDARY CREDENTIALS

- An Articulation agreement with Montgomery College is being updated.

## HEALTHCARE PROFESSIONS ALLIED HEALTH INTERNSHIP OPTION (4 CREDITS)

*Offered at: Clarksburg HS, Col. Zadok Magruder HS, John F. Kennedy HS, Paint Branch HS, Seneca Valley HS, Sherwood HS, Thomas Edison High School of Technology, Watkins Mill HS*

The Academy of Health Professions uses project and problem-based learning, clinical experiences, and classroom and lab instruction to teach students about the high-demand field of health care. Students are introduced to basic health-care knowledge and skills through two foundation courses: Foundation of Medicine and Health Science and Structures and Functions of the Human Body. Opportunities for students to apply foundational course knowledge to real-life health-care situations are offered through specialized course options such as Certified Clinical Medical Assistant.

Students will have the opportunity to earn state and/or nationally recognized certifications and/or college credit through articulation agreements with local colleges. Students may choose from several options for program completion. These may include enrollment in a postsecondary institution or internship. Students are strongly encouraged to complete four years of science. At a minimum, students should take biology and chemistry while enrolled in the program.

| REQUIRED COURSEWORK IN THIS SEQUENCE               |             |  | COURSE CREDIT BY SEMESTER | COURSE INFO |
|--|-------------|--|---------------------------|-------------|

## • MOBILE APPLICATIONS AND SOFTWARE DEVELOPMENT (APPLE)

### MOBILE APPLICATION AND SOFTWARE DEVELOPMENT (APPLE) PROGRAM OF STUDY (3 CREDITS)

*Offered at: Walter Johnson HS, Watkins Mill HS*

The Develop in Swift curriculum is intended for high school students to explore designing and building a fully-functioning app of their own. (Certification: App Development in Swift: Level 1) As they develop new skills, students will master key coding concepts and can even earn AP college credit or an industry-recognized certification for their knowledge of Swift and XCode. Students who earn certification can share a digital badge with their professional networks to convey their preparedness for industry.

| REQUIRED COURSEWORK IN THIS SEQUENCE |             |                                       | COURSE CREDIT BY SEMESTER | COURSE INFO |

- NAFTTrack Certification
- Montgomery College—up to 9 credits

Additional program information can be found at [www.montgomeryschoolsmd.org/career-readiness/plans/information-technology.aspx](http://www.montgomeryschoolsmd.org/career-readiness/plans/information-technology.aspx)

## NETWORK OPERATIONS (3 CREDITS)

*Offered at: Clarksburg HS, Seneca Valley HS, Thomas Edison HS*

The Network Operations program of study offers students an opportunity to learn technical and problem-solving skills, while providing a comprehensive foundation of microcomputer and network technologies. Preparation for international industry credentials validate the knowledge students have attained. Hands-on laboratory experiences train students as entry-level technicians in the field of IT as well as for advanced studies in engineering and IT in colleges, universities, and the military. Articulated college credits may be earned through successful completion of the program.

## P-TECH PATHWAYS IN NETWORK AND INFORMATION TECHNOLOGY (3 CREDITS)

*Offered at: Clarksburg HS*

Clarksburg's P-TECH Pathways in Network and Information Technology is a dual-enrollment program that enables participating students to earn both an MCPS high school diploma and an associate of applied science (AAS) degree from Montgomery College for FREE, while in high school. Students will complete their high school diploma credits while earning the AAS degree in four to six years. The AAS degree ensures that students will meet industry expectations and gain technical skills and workplace competencies as well as industry certifications. Skills acquired include software and hardware installation, network and security configuration, forensics fundamentals, virtualization, and cloud computing.

Note: this program is offered exclusively at Clarksburg High School by application, and the only entry point for this program is at the beginning of ninth grade. *In addition to Clarksburg High School, a limited number of students in Grade 8 from the following high school clusters are eligible to apply: Damascus, Gaithersburg, Magruder, Northwest, Quince Orchard, Poolesville, Seneca Valley, and Watkins Mill.*

# PROGRAMS OF STUDY IN LAW, GOVERNMENT, PUBLIC SAFETY AND ADMINISTRATION

## • FIRE SCIENCE AND EMT

### FIRE SCIENCE AND EMT PROGRAM (6 CREDITS)

*While the program is open to all MCPS students: Students are required to pass an occupational medical exam, clear a background check and be COVID vaccinated prior to being accepted into the program.*

The Fire Science and Emergency Medical Technician (EMT) program prepares juniors and seniors for a variety of careers in fire prevention, management, and emergency medical technology. Students will divide their time between their home high school and the Public Safety Training Academy which is located at 8751 Snouffer School Road, Gaithersburg, MD 20879. During the program, students are expected to maintain 90 percent attendance and a minimum grade of 70 percent on all assessments. Students are required to complete a minimum of 393 hours of work-based learning and take the seven certification exams. The program culminates with the opportunity to receive college credit. Rising Grade 11 students will apply to the Fire & Rescue 1 course and rising Grade 12 students will apply to the Emergency Medical Technician course.

### AVAILABLE CERTIFICATIONS/POSTSECONDARY CREDENTIALS

- Certifications:
  - » Emergency Medical Technician (EMT-B)
  - » Emergency Medical Responder Certification
  - » Fire Fighter I Certification
  - » Fire Fighter II Certification
  - » Truck Company Fireground Operations
  - » Hazardous Materials Operations
  - » Rescue Technician, Site Operations Certification
  - » Rescue Technician, Vehicle & Machine Extrication Certification
- Postsecondary Credentials:
  - » Anne Arundel Community College – Up to 10 articulated credits
  - » Cecil College – Up to 32 credits
  - » College of Southern Maryland – Up to 20 credits
  - » Frederick Community College – Up to 15 credits
  - » Montgomery College- Up to 12 credits
  - » Prince George's Community College – Up to 18 credits
  - » University of Maryland Global Campus – Varies dependent on Major

## • JUSTICE, LAW, AND SOCIETY

| <b>JUSTICE, LAW, AND SOCIETY (4 CREDITS)</b><br><i>Offered at: Montgomery Blair HS, Northwood HS, Springbrook HS, Quince Orchard HS</i>  |             |  |                           |             |
|--|-------------|--|---------------------------|-------------|
| The Justice, Law, and Society program prepares students for further education and careers in law enforcement, legal services, and government and public administration. Students develop critical-thinking skills by solving real-world problems and analyzing public policy related to law, law enforcement, and government. Students use information technology to access, analyze, and evaluate legal research and produce legal documents. Students develop oral and written communication skills for use in presenting legal research and legal documents. Students demonstrate knowledge of the American legal system, including the study of diverse areas of law, causes of crime, and the role of law enforcement through case studies, interviews with industry representatives, and community-service projects. These courses are career education electives. |             |  |                           |             |

## • LAW ENFORCEMENT AND LEADERSHIP

| <b>LAW ENFORCEMENT AND LEADERSHIP (4 CREDITS)</b><br><i>Offered at: Thomas Edison High School of Technology, Seneca Valley HS</i>  |   |  |                           |             |
|--|---|--|---------------------------|-------------|
| The Law Enforcement and Leadership program prepares students for careers and/or further education in the fields of criminal justice, law enforcement, law, and public safety. The program includes 3 credits of academic coursework and a Capstone experience. Students develop critical-thinking skills and learn about principles, policies, and practices related to law enforcement and criminal justice. They learn traditional academic content while also participating in simulations, structured debates, and inquiry projects. Students develop oral and written communication skills in presenting criminal justice-related research. Through a combination of visiting experts and academic field trips, students learn from a variety of law enforcement and legal professionals real-life applications of course content. Students examine the criminal justice system--and potential careers within--at the local, state, and federal levels. |   |  |                           |             |

## • JUNIOR RESERVE OFFICERS TRAINING CORP (JROTC)

### JUNIOR RESERVE OFFICERS TRAINING CORP (JROTC) (3 CREDITS)

*Naval Science Offered at: Gaithersburg HS, John F. Kennedy HS, Paint Branch HS, Seneca Valley HS*

The Junior Reserve Officers' Training Corps (JROTC) program is a character and leadership-development program that is a cooperative effort between the U.S. Armed Forces and the high schools to produce successful students and citizens. MCPS offers programs associated with the Army and the Navy. The purpose of JROTC is to instill in U.S. students the values of citizenship, service to the United States, and personal responsibility and a sense of accomplishment.

# PROGRAMS OF STUDY IN TRANSPORTATION TECHNOLOGIES

## • AVIATION AND AEROSPACE

| AVIATION PILOT (4 CREDITS)  |          |                                      |                           |             |
|---|----------|--------------------------------------|---------------------------|-------------|
| <i>Offered at: Magruder HS</i>  |          |                                      |                           |             |
| Aviation and Aerospace is a full-time program, beginning in Grade 9, for students interested in flight and aircraft systems. Invitation is by application only in the fall of Grade 8 for this four year program. The pilot pathway introduces students to safety, aerodynamics, aircraft systems, instrumentation, flight physiology and flight planning. Students can work toward obtaining a private pilot's license. The upper-level courses in the pathway will prepare students for postsecondary education, Federal Aviation Administration Part 107 certification exams, and careers in the aviation and aerospace industry. This program is guided by the Aircraft Owners and Pilots Association (AOPA). |          |                                      |                           |             |

| Aviation and Aerospace is a full-time program, beginning in Grade 9, for students interested in flight for Unmanned Aircraft Systems. Invitation is by application only in the fall of Grade 8 for this four year program. The pilot pathway introduces students to safety, aerodynamics, aircraft systems, instrumentation, flight physiology and flight planning. Students can work toward obtaining a private pilot's license. The upper-level courses in the pathway will prepare students for postsecondary education, Federal Aviation Administration Part 107 certification exams, and careers in the aviation and aerospace industry. This program is guided by the Aircraft Owners and Pilots Association (AOPA). |          |                                      |                           |             |

## • AUTOMOTIVE PROGRAMS

### AUTOMOTIVE COLLISION REPAIR (4 OR 6 CREDITS)

*Offered at: Gaithersburg HS (DP) and Thomas Edison HS of Technology (TP)*

The Automotive Collision Repair program prepares students interested in pursuing a career in the automotive collision field. Students learn through authentic experiences as they use tools and materials to repair panels, doors, windows, and other damaged parts of automobiles, and painting techniques. Students completing this program are eligible to receive recognized industry certifications. This course is aligned with the Automotive Service Excellence (ASE) Education Foundation Paint & Refinish and also includes some of the non-structural repair curriculum.

### AUTOMOTIVE TECHNOLOGY (4 OR 6 CREDITS)

*Offered at: Damascus HS, Gaithersburg HS, Seneca valley HS (DP), Thomas Edison HS of Technology (TP)*

Automotive Technology students are offered an opportunity to train for skilled positions in the automotive professions. This program develops students' technical, analytical, and communication skills. Students are provided instruction and hands-on experience in many areas, including engine performance and repair, suspension and steering, brakes, electrical/electronic systems, and heating and air conditioning to develop their knowledge and skills in the maintenance, repair, and sales and marketing of automobiles. This course is aligned with the Automotive Service Excellence (ASE) Education Foundation.

# MCPS NONDISCRIMINATION STATEMENT

Montgomery County Public Schools (MCPS) prohibits illegal discrimination based on race, ethnicity, color, ancestry, national origin, nationality, religion, immigration status, sex, gender, gender identity, gender expression, sexual orientation, family structure/parental status, marital status, age, ability (cognitive, social/emotional, and physical), poverty and socioeconomic status, language, or other legally or constitutionally protected attributes or affiliations. Discrimination undermines our community's long-standing efforts to create, foster, and promote equity, inclusion, and acceptance for all. The Board prohibits the use of language and/or the display of images and symbols that promote hate and can be reasonably expected to cause substantial disruption to school or district operations or activities. For more information, please review Montgomery County Board of Education Policy ACA, *Nondiscrimination, Equity, and Cultural Proficiency*. This Policy affirms the Board's belief that each and every student matters, and in particular, that educational outcomes should never be predictable by any individual's actual or perceived personal characteristics. The Policy also recognizes that equity requires proactive steps to identify and redress implicit biases, practices that have an unjustified disparate impact, and structural and institutional barriers that impede equality of educational or employment opportunities. MCPS also provides equal access to the Boy/Girl Scouts and other designated youth groups.\*\*
